A GENEALOGICAL QUOTATION:

"The disintegration of Europe's royal houses since World War I has let loose on the world a flood of self-styled counts, marquesses, barons and others whose claim to their dignities has no more reality than the figures in a Ruritanian romance."

--L. G. Pine, editor, BURKE'S PEERAGE, address at the Third International Congress on Genealogy, Heraldry and Orders of Chivalry, Madrid, Spain, 1955.

KIMBROUGH, ROGERS, PEYTON, JOUET, JENNINGS, ETC.

Mrs. Ray Baker, 2020 Thomas Place, Fort Worth, 7, Texas, wants data on KIMBROUGH, any place. Wants parents of JAMES KIMBROUGH, Tennessee to Texas, by way of Mississippi. Texas before 1857. Would like to correspond with anyone working on the genealogy of the KIMBROUGH family.

Mrs. Baker is also working on the following lines: ROGERS, PEYTON (PAYTON), JOUET (JOUETT, JCUHET), JENNINGS, ALEXANDER, McCLUNG, PAXTON, CUMMINS (CUMMINGS), DUNLAP, ORBISON, MARTIN, MACE, STONE, CLIFFORD, BAKER, and allied lines. She is also trying to trace for a cousin the lineage of WILLIAM S. TAYLOR, b. 1792, Ga., married ELIZABETH JOHNSTON, said to be related to GEN. ALBERT SIDNEY JOHNSTON. WILLIAM S. TAYLOR was in the Texas legislature, speaker of the House when he died in 1858. He was 1st cousin to ZACHARY TAYLOR; 2nd cousin to President James Monroe. His son, William S. Taylor, fought in the battle of San Jacinto. And Mrs. Baker is attempting to obtain data on a KEARBY line from Jessamine Co., Ky., to Denton, Texas.

PARKS, MORROW—

Mrs. Monroe Claridge, Box 708, Safford, Arizona, is very anxious to find the ancestry of JANE PARKS, wife of WILLIAM MORROW. He was of Guilford or Orange Co., N. C.; died 1807.

Her MORROW line is ALEXANDER (1), DANIEL (2), and WILLIAM (3) who married JANE PARKS—their daughter, ELIZABETH MORROW (4) married JAMES ANDREWS. (Her husband's aunt married a man named ARCHIE MORROW from Texas; she knows nothing about his lineage.) Mrs. Claridge would appreciate any suggestions to help her trace her MORROW-PARKS lineage.

A LETTER TO THE EDITOR FROM AUSTRIA:

"Referring to your Bulletin, Vol. 1, No. 20, of December 1958, page 8, I want to give some comments on the ARUNDELL case.

To SIR THOMAS ARUNDELL OF WARDOUR the title "Graf des Heiligen Römischen Reiches" (Count of the Holy Roman Empire) was granted by Emperor Rudolph II in Prag, December 14, 1595. This included his children, already born, or to be born in the future, and their legitimate descendants. Thus his sons became Counts, and his daughters, Countesses. But the daughters or the daughters of his sons, etc., were Countesses only as long as they didn't get married. By marriage they got the title of the husband, or no title at all if the latter might have been untitled, or not of the nobility at all. They, of course, remained a Countess Arundell by birth, but the title could never be transferred to, or inherited by her children. Thus, all legitimate descendants became Count or Countess respectively, by birth, but the Countesses kept this title only as long as they stayed single.

Mr. Rubincam is entirely correct when stating that on no account the female lines could count on a title under this patent.

The title was "hereditary," but it was not "inherited" in the usual sense, i. e. after the death of the predecessor, but acquired by birth of both sexes.

I may further mention that there never existed an "IMPERIAL HUNGARIAN ARMY", since there never existed a Hungarian Empire. It was the Army of the Holy Roman Empire where SIR THOMAS ARUNDEL(L) OF WARDOUR served in. He distinguished himself especially in the engagement at Gran in Hungary (not to be confused with the battle near Gran on October 10, 1683!) where he took the standard of the Turks (sic) with his own hand. After his return to England the English Baronetage contended his taking precedence, and to settle the respective disputes Jacob I elevated him to the peerage on May 4, 1605 by the title of Baron Arundel of Wardour. He died on November 7, 1639.

The objection of the British Baronetage was legally correct, since the title granted by the Emperor was theoretically valid only for subjects of the Emperor, or in the realms of the Holy Roman Empire of the German Nation.

In this connection it ought to be mentioned that the German title "GRAF" is linguistically only equivalent to the English "COUNT", the French "COMTE", the Italian "CONTE", the Spanish "CONDE", etc., but not with regard to ranking. The order of rank in the various countries was different, because there were more or less degrés between.

(A Letter to the Editor from Austria continued)

Furthermore the "Count of the Holy Roman Empire" was ranking higher than some Count created by some other German Sovereign. Thus it very often happened that some nobleman holding already some German title, asked for, and got the same title granted by the Emperor."

Ye olde editor wishes to thank the members of the Fort Worth Genealogical Society for the gift, A DICTIONARY OF CONTEMPORARY AMERICAN USAGE, by Bergen Evans & Cornelia Evans, (Random House, New York, 1957), presented to her at the January 26, 1959, meeting as out-going president of the society. (Now there'll be no excuses for our murdering Mr. Evans' English)...we say, "Mr. Evans' English," for it no longer resembles the King's.

On page 32 we find a definition to share with you fellow ancestor-chasers, as follows:

"ancestor; ancestress. Our ancestors include our ancestresses. If we attribute some saying to our ancestors or speak poetically of one who sleeps among his ancestors, there is no implied differentiation of male from female. An ancestress is just as much an ancestor as a male forebear. But if for some reason one wishes to indicate that a particular ancestor was a woman, ancestress is useful. Thus when Sir Arthur Helps in his SOCIAL PRESSURE said that The ladies of the present day...suffer (tolerate) much more waste in their households than their ancestresses did, the word permits him to make it plain that he is referring to extravagance wholly within the province and control of the lady of the house."

NAME CHANGING--(THE SPOOR OF GENEALOGISTS):

In Bergen Evans' book, THE SPOOR OF SPOOKS, (Alfred A. Knopf, New York, 1954), he says, "Those who believe that a man cannot change his name without permission of a court are not wholly wrong, for some states do have statutes that so rule. But most agree with Illinois that a man's name is that by which he is known, and that he may change it at will if he does not do so with intent to defraud.* Casanova went under the name of the Chevalier de Seingalt and, secure in his right, saucily told a judge who charged that Seingalt was not his true name that he had found the eight letters idle in the alphabet and put them to use."

EXCERPTS FROM MRS. HOMER L. ROPER'S TALK ON GENEALOGICAL RECORDS PRESENTED TO THE SOCIETY AT THE FEBRUARY 23, 1959, MEETING:

"When copying Bible Records, make a full copy of everything listed in the Bible under BIRTHS, MARRIAGES, and DEATHS, and not simply the entries on your direct line. Copy the year the Bible was published, the name of the publisher, the name of the original owner and the name and address of the present owner.

Your copy of the Bible Record should be certified. A certified copy of a record is an exact copy that has been attested by a notary public, or sworn to in the presence of a notary public, as being a correct copy. These sworn statements are necessary in order to make the record submitted absolutely complete, and something that future genealogists and historians cannot question.

Other records that should be copied are from courthouses and city records (Marriage records; Wills and Deeds); from churches (Marriages, Birth and Death Records), and from cemeteries (tombstone inscriptions)."

MY BRANCH OF THE CLAY FAMILY

--contributed by Charles H. Young, Route 1, Box 274,
Grapevine, Texas

My great, great grandfather, CYPRIAN CLAY, was the only son of John Bruce Clay (who was an older brother of Henry Clay, the Statesman) and his wife, Julia Duralde. He was born in Tuckapaw, Franklin Parish, La., 10 March 1813.

According to family records, he was reared in or near New Orleans, La., until he was about sixteen years old, when, after his father's death, dis-inherited by his wealthy mother because he refused to accept her religion, Cyprian went to live with his Uncle Henry Clay's family at Ashland, Kentucky. He married firstly, 1833, in Frankfort, Kentucky, Mary Ann Gamaliel Hill, and had a son, Henry Lewis Clay, born 18 June 1834, in Lexington, Kentucky, and a daughter, Mary Ann Clay, born 6 November 1836, in St. Louis, Mo.

After the death of his first wife, Cyprian Clay married secondly, Hannah Jane Jonas, daughter of John Jonas, Indian agent from Ohio. Hannah's parents objected to this marriage and had her kidnapped, and she was reported drowned on a river boat that sank. Cyprian married thirdly, a girl named Lydia, who died in childbirth. He then learned that Hannah was not dead, found her; they remarried in 1839, went west, and had eleven children, one of whom was my great grandmother, Lydia Clay (named for her father's third wife).

Cyprian Clay was a printer and newspaper publisher; went from St. Louis, Mo., 1846, to Jefferson City, Mo.; about 1853 to Springfield, Ill.; about 1856 to Petersburg, Ill., where he published the "MENARD AXIS," forerunner of the "PETERSBURG OBSERVER;" at Petersburg, Ill., during the War Between the States; he moved to Dallas, Texas, in 1868; later to San Diego, California, where he died 7 Nov. 1903.

I know that about January, 1883, a Mr. A. E. Trabue of Hannibal, Mo., a descendant of the Clay family, corresponded with Cyprian Clay, then living in Dallas, Texas, and with his son, Henry Lewis Clay, of Minneapolis, Minn., concerning his compilation of a genealogy of the Clay family, and that if Mr. Trabue's records can be located, a considerable amount of new material can be developed on several lines of the Clay family.

Cyprian Clay's son, Henry Lewis Clay, was also a newspaperman, and as a young reporter accompanied Abraham Lincoln on some of his campaign trips to record the speeches for his newspaper.

My research on John Bruce Clay and wife, Julia, daughter of Martin Duralde, Sr., only turns up the brief comment that 'there was no issue of this marriage.' However, there are many hundreds of descendants to the contrary, and I will be glad to exchange data concerning this family."--Charles H. Young, Route 1, Box 274, Grapevine, Texas.

LETTER TO THE EDITOR:

(FROM THE NATIONAL GENEALOGY SOCIETY'S RUBINCAM)

"I have been following with much interest the controversy set off by my unequivocal statement in the March 1958 issue of the NATIONAL GENEALOGICAL SOCIETY QUARTERLY that the descendants in the female lines of the first Lord Arundell of Wardour are NOT entitled to call themselves Count or Countess of the now-extinct Holy Roman Empire of the German Nation, in spite of the patent granted to him in 1595 by Emperor Rudolf II. The letter from Karl Friedrich von Frank, the distinguished Austrian genealogist and Fellow of the American Society of Genealogists, published in your BULLETIN, vol. 2, Feb. 1959, pp. 7-8, I am happy to note, completely vindicates my position.

However, your readers are entitled to know the reply I received from Anthony R. Wagner, Esq., F. A. S. G., Richmond Herald at The College of Arms, to whom I posed the question. Referring to the original patent, which is on file at the College, he states (January 14, 1959): 'Taken literally, it could bear the meaning which has been attributed to it, but I have always understood that this is not the true meaning in German Law. On that point, however, my opinion has no authority. If you had a copy of the document you could probably get a sound opinion of its construction from Germany or Austria.' (Underscoring is mine.)

I was just on the point of writing my friend Mr. von Frank for 'a sound opinion,' when I received the February issue of the BULLETIN in which he voluntarily confirmed my statement!

It should be noted that the Howard family of Maryland which claims descent in the male line from the first Lord Arundell of Wardour is not descended from his son Matthew. In 1939 the late John Bailey Calvert Nicklin published an article in THE MARYLAND HISTORICAL MAGAZINE in which he presented evidence to show that this Matthew Arundell had died in England at the early age of 11, some years before he allegedly migrated to the colonies. Hence, the Mathew Howard of Lower Norfolk County, Va., could not have been Matthew Arundell under another name."

Sincerely,

MILTON RUBINCAM, F. A. S. G., F. N. G. S.

PANHANDLE GENEALOGICAL SOCIETY:

On November 7, 1957, Mrs. Woodson Coffee, as Acting Chairman, called to order an informal meeting of those assembled in the interest of a genealogical society in Amarillo, Texas, at the Mary E. Rivins Memorial Library. Today the result of this meeting is the Panhandle Genealogical Society with Judge Ezelle Fox as President. We wish them luck and success in their genealogical work.

GEDDIE & McPHAIL GENEALOGY:

A new genealogical work by Jack Geddie, THE FAMILIES GEDDIE & McPHAIL, has been published by Henry L. Geddie Co., 358 Majestic Bldg., Fort Worth, Texas. Mr. Geddie traces the history of the families and then presents their genealogy in this 224 page book. He uses an original system of indentation in listing the descendants of James Daniel Geddie and his wife, Isabella McPhail who came from Scotland to America sometime in 1772. Much time and labor went into this family history. Anyone interested in obtaining a copy of this limited edition may contact the Henry L. Geddie Co., at the address given above.

SOME SUGGESTIONS FOR THE BEGINNING GENEALOGIST--

Contributed by Mr. J. A. Cookston, former President of the Louisiana Genealogical and Historical Society, 343 South Fairfax, Baton Rouge 6, Louisiana.

- I. Become familiar with technique books which will help you in conducting genealogical research. Suggested are:
 - A. Doane, Gilbert H., SEARCHING FOR YOUR ANCESTORS: the How and Why of Genealogy. Univ. of Minnesota Press, 1948.
 - B. Hopkins, Garland E., YOUR FAMILY TREE: HOW TO TRACE YOUR ANCESTORS. Dietz Press, 1949.
 - C. HANDY BOOK FOR GENEALOGISTS. Everton Publishers, Logan, Utah.

- II. Go from the obvious to the obscure.

Secure a pedigree chart and record what you know; i. e., you are the first generation, your parents are the second, your grandparents are the third, etc.

- III. Members of the Family

Consult older members of your family. Write all that they can tell you--names, dates, locations, etc. Consult them several times since memory often fails them.

- IV. Family Bibles

Consult family Bibles for family records. If possible get the pages photostates and certified.

- V. Cemeteries

Visit family cemeteries to secure data from tombstones. If possible take a picture of the tombstones.

- VI. Family letters

Read old family letters to determine whether or not names, dates, and location of your ancestors can be found.

- VII. Legal records

Visit court houses or write to Clerks of Court in parishes or counties where your ancestors lived. The following information can be obtained: wills, marriage licenses, deeds, court proceedings, etc.

- VIII. Vital Statistics

Consult state bureaus of vital statistics to secure birth and death records.

- IX. Military records

Consult military records. For example: Dept. of Archives & Hist., Jackson 5, Miss.; Gen. Services Administration, National Archives, Washington, D. C.

- X. And Church records, queries in publications, bookstores, libraries, and remember genealogical research requires TIME, PATIENCE, AND PERSISTENCE.

PICTURES AND GENEALOGY:

G. Hubert Smith, in the September 1949 issue of the BULLETINS OF THE AMERICAN ASSOCIATION FOR STATE AND LOCAL HISTORY, pages 75-98, describes how a collection of historical pictures should be preserved and what records should be kept on such a collection. Mr. Smith advises that your records should show the full name of the subject or person, as concisely as possible, where the view was taken, when the picture was made, who made it, and why or how the picture was taken.

Many genealogists have family pictures in their files and your records should be as accurate and detailed on your pictorial genealogy as it is on your charts and research data.

YOUR FEDERAL RECORDS CENTER:

--By Max W. Ulery, Chief, Federal Records Center, Fort Worth,

Texas

The age in which we live has been given a number of titles. It is commonly called the Atomic Age, but there is mounting evidence that that title is not the most appropriate. Future historians may prefer to call it the Paperwork Age, in deference to the sheer volume of that commodity, its staggering cost, and the attention given to its cause and cure. Our personal lives proceed on paperwork. We cause records to be made before we are born (prenatal care). We cause records to be made during our lifetime (re birth, education, employment, military service, medical care, religion, insurance, credit, social security, marriage, taxes, will, etc.). We cause records to be made after death (death certificate, transfer of property title, and even our epitaph on our tombstone). Somebody has to pay the bill.

The business world proceeds on paperwork. Westinghouse decided to clear out its files and found it could destroy 120 carloads and transfer another 300 carloads to archives-type space. Equitable Life found its accumulation of old papers would make a pile 51 times as high as the Empire State Building. Until recently, business' answer to the paperwork problem was to hire more clerks, buy more filing equipment, rent more space. Just recently they have been taking a closer look at the tremendous cost of paperwork and have been doing something about it.

The Federal Government proceeds on paperwork. We use 25 billion sheets of paper per year, enough to reach to the moon 13 times. The average family is paying \$100 a year as its share of this paperwork burden. In our government, also, too many copies are being made, too many people are reading and routing them and too many papers are being filed and stored. The Government, in 1949, decided to take a closer look at the tremendous cost. A Hoover Commission was appointed and so called because it was headed by our former president Herbert Hoover to investigate the housekeeping practices of the federal agencies. Included in this survey was the paperwork practices. This Commission made three principal recommendations regarding this area of their investigation. One, creation of a Records Management Bureau in the office of GSA to include National Archives and Records Service; two, enactment of a new Federal Records Management Law - Congress passed the Federal Records Act of 1950; and three, establishment of an adequate Records Management program in each agency. The Records Act of 1950, Public Law 754, authorized the administrator of GSA (GENERAL SERVICES ADMINISTRATION) to establish and operate the Records Centers for the storage, processing, and safe-guarding of records of the federal agencies. As a result of this law, eight Records Centers were established, one of which is here in Fort Worth at 424 West Vickery. Your Federal Records Center was officially opened in the spring of 1952. I say your Federal Records Center because every piece of paper (we have approximately 504 million pieces - you might say acres of papers) was created because of some action by the government - for you, about you, or because of you. The Fort Worth Center is housed in a fire-proof concrete building covering 44,880 square feet of space. Most of the records are placed in cardboard containers and stored on steel shelving 15 feet high. There are approximately 144,000 cubic feet of records received

(Your Federal Records Center--by Ulery, continued:)

from 80 different agencies at 300 different locations in our four state area: Oklahoma, Texas, Louisiana and Arkansas. The 144,000 cubic feet of records is equivalent to 130 boxcar loads or 21,000 four-drawer filing cabinets. There are 14 employees, 9 of which are archivists or assistant archivists. We receive 70,000 reference requests each year and approximately 500 of these will require research. Some of the various types of records that we have at the Center are U. S. Court records from 26 locations. Included in Court records are cases in equity, bankruptcy, law, civil, and criminal, dating back to 1851, and in one particular court, 1790. Bureau of Customs files contain passenger and crew lists. Immigration and Naturalization Service records include entry and citizenship application files. Forest Service records contain land files including abstracts and deeds. War Assets records include land acquisition files of some of the old forts, reservations, etc. And of course, the group which you are particularly interested in are those received from the Bureau of Indian Affairs. Records have been received from the following locations:

Anadarko, Oklahoma	- Area Office (Southern Plains)
Ardmore, Oklahoma	Former Extension and Welfare Office
Chilocco, Oklahoma	Agriculture School, boys and girls

HILAIRE BELLOC ON "LINEAGE":

"...on the nature of lineage--'which is not' as you vainly imagine in your crass suburban ignorance a mere inheritance of money for a whole 60 or 70 years but knowing who you are: a dimension in time appreciable to anyone who knows all about his 4 great grandfathers and his 4 great grandmothers: who they were and what they were in social habit and knows that they were all of his own kind and he of theirs. That is lineage." *

*(Belloc would claim to be the 'flower of the bourgeoisie'--because he knew the maiden names of his four great grandmothers.)

WHAT'S MY LINEAGE?

DAVIS, BARNETT:

Myra K. Slover (Mrs. J. R. Slover), P. O. Box 391, Liberty, Texas, would like to find names of the parents of her great grandfather, MARTIN DAVIS, born 1806 in Georgia; wife, MIMA (or MIMER) BARNETT, born in Alabama or Georgia.

MORROW:

Miss Jennie Smith, % F. Morrow, Minden, Nebraska, wishes to know the parents and any known history of the ancestors of this couple--
Grave stone inscription: "PETER PATTERSON MORROW died March 14, 1873, aged 62 years, 5 months, 9 days; (b. Oct. 5, 1810)." Inscription: "Mary, wife of Peter Patterson Morrow, died Sept. 29, 1872, aged 60 years, 4 months, 19 days." (b. 5-10-1812). From the Iowa State Census of 1856, Miss Smith learned that PETER PATTERSON MORROW, wife Mary, and son James were born in N. C., David born in Indiana, William J., John, Leander, Malissa, and Albert all born in Iowa (Marion Co.), where Peter settled 1838 to 1840. He owned 400 acres of land. They are buried in Pleasantville Cemetery, Marion Co. Mary's maiden name was also Morrow, as they were cousins. Miss Smith supposes that they were Irish as she understands the MORROWS descend from the ancient McMURROUGH family of Linster. She will be very glad for any help.

HUMPHREY, HUSTON, JOLLY, McCLEARY, WILLS, AND ALLIED LINES:

Howard G. Humphrey, P. O. Box 1214, Eugene, Oregon, wishes to hear from any HUMPHREY family. He is working on the following three lines--

Central Penn.--Chester, Franklin Cos.; Conococheague Settlement, Mercersburg; Will on file Chambersburg. Issue--GEORGE, b. 1749, N. Ireland; ROBERT, b. 1750/1, N. Ireland; JOHN, b. prop. Chester Co.; DAVID, JR.; WILLIAM; ANN; and JANE, prob. b. Franklin Co. Presbyterians.
- 2) GEORGE HUMPHREY, (son of 1) David Humphrey), and 2nd wife, ELIZABETH JOLLY, removed to Jefferson Co., Ohio, after 1788, nr. Steubenville.

YORK, GRAND (GRANT), CHRISMAN:

Mrs. Merlin A. York, 1800 N. W. 31st Street, Oklahoma City 18, Oklahoma, wants the parents and brothers and sisters of JAMES YORK, born 1812, Surry Co., North Carolina. Died after 1877, in Kaufman County, Texas. Married firstly to MARY ANN CHRISMAN, Dec. 10, 1832, in Surry Co., N. C. Children by this marriage: Mark, Mary A., Louisa, Nancy and Manuel. Married secondly in 1843 to SARAH GRAND or GRANT, who was born in 1825, and died after 1888. Children by this marriage: NATHAN DURHAM, FERIBE E., SARAH J., FRANCES, LAURA C., and CHARLES N. Family moved to Champaign Co., Ill., in 1851. Later moved to Kaufman Co., Texas and purchased land near Terrell, Texas. Mrs. York will appreciate any information on this family and will exchange data.

Mrs. York has worked personally, but unsuccessfully, in Kaufman Co., Texas, to find the burial places of persons referred to above, the great grandparents of her husband. She found records of their owning land and willing lots located in Lawrence, Texas, to the Methodist Church. She would like the name of the present District Supt. of that church, who has Kaufman County under his jurisdiction, in hopes that he can locate the old church records for her. Their farm land was a part of the John C. Hale 26 Labor Survey. She believes they would have been buried either at Lawrence or Terrell.

BUTLER, BRADY:

Mrs. Ruby R. Bryan, 205 E. Stewart Ave., Opp, Alabama, wants to exchange data on the following family: W. W. BUTLER, b. 1805 in D. C.; d. c 1880 in Elmore Co., Ala.; m. c 1825 MARY ANN (POLLY) BRADY (BRADDY), probably in Greenville, S. C. Removed to Ga. c 1832. Father's name unknown (father died on the move to Alabama and was buried by the side of the road). Mother's given name MARTHA. Joined Mexican War from Troup Co., Ga., 1846. He was in Tallapoosa Co., Ala., by 1860. Children: LOUISA L. m. CHARLEY PASLEY, removed to Ark.; JAMES WILLIAM; JOHN S.; MARTHA AMERICA; THOMAS M.; SUSANNA. Had a brother, DREW M. and several sisters.

GIBBS, PARMAN, TANDY:

Mrs. Opal Soetaert, Box 63, Martin City, Missouri, wants data re GILES PARMAN who married a GIBBS girl. Giles Parman, his wife and her parents went to or near Fort Worth, Texas, before the War Between the States. He served in the Confederate Army from Fort Worth. Mrs. Soetaert would like to know the given name of Mrs. Giles Parman and the full name of her parents, and what outfit Giles Parman served in during the War Between the States. She believes a grandson named TANDY, a lawyer, is living in Fort Worth now.

(What's My Lineage? continued:)

SCOTT, BRUCE, BURRIS, BAUGH:

Arthur E. Scott, Jr., 3809 Lamont Street, Corpus Christi, Texas, is interested in the family of JOSEPH and ELIZABETH SCOTT, JAMES W. SCOTT, and any families named BRUCE. He would like to know if they or any of the BURRIS family were living in the area of Ft. Bend, Austin, or Washington Counties in the early 1830's. According to his records, JOSEPH and ELIZABETH SCOTT came to Texas with their family in 1831, landing at the mouth of the Brazos. With them were their married sons, JAMES W. SCOTT and JAMES EUCLID SCOTT. One of JAMES W. SCOTT'S sons, JOHN C. BURRIS SCOTT, was born in Alabama. (In the Census for 1850 in Milam Co., is listed a JOHN C. BURRIS, also born in Ala.). It is possible that according to a family tradition in the BAUGH family of Arkansas, that ELIZABETH SCOTT, nee BRUCE, was accompanied to Texas by two sisters and one brother, names unknown. Mr. Scott would like to know their names and any other information on these lines will be appreciated.

GRIFFITH, GRIFFETH, DOANE, BRYANT, CHESEBROUGH, ANDERSON, JOHNSON, COWELL, LAWYER, AND ALLIED LINES:

ON THE IMPORTANCE OF GENEALOGY IN THE EIGHTEENTH CENTURY:

"...eighteenth century society, though like our own in its stress on property and money, differed from ours in one important respect: it was a 'lineal' society. A man thought of himself and was judged by others in terms of his family, its position and traditions, a good deal more than in terms of what he was or made of himself as an individual."--Frank Brady:Boswell in Search of a Wife, 1766-1769.

SIXTY YEARS IN TEXAS D. A. R., 1899-1959:

by Miss Marion Day Mullins, 2306 Park Place, Fort Worth, Texas.

The following study has been compiled from a concentrated reading of the Annual Proceedings of Texas D. A. R. Here is to be found the essence of sixty years of consistent endeavor, as reflected through the annual reports.

Texas has had twenty-three State Regents. One, Mrs. James B. Clark, appointed by the National Board and all the rest elected by Conference delegates. A state meeting has been held every year but one since 1900. In 1945 a government ban on travel prevented the convening of a Conference.

George Washington Chapter in Galveston has the first charter granted in Texas, June 1895. After five years had passed and five chapters had been established the first State Conference was called for a one day session in Dallas, during the State Fair.

For the first thirty-seven years individual Chapters were hostesses for State Conference, and for thirty years of that time they were hostesses in fact, bearing the expense of all social affairs. As the chapters increased in number and the list of delegates and interested members grew, when the size of a Conference was counted in hundreds, not in tens, the hotel and auditorium facilities of a place of meeting became of paramount importance. In order that chapters in smaller communities might share in the privileges of hospitality participation the plan of Division Conference was developed. The time of the meeting was determined by the convenience of the entertaining chapter and the State Regent until 1934 when March was selected for Conference. Even that has been changed when circumstances demanded.

Whereas most sessions of each annual meeting have been filled with reports of the members, addresses have been made by many non-members and persons of distinction. Among them, thirteen Presidents General, N. S. D. A. R., (some have been to Texas three or four times), other National Officers and National Chairmen. There have been five Texas Governors, two Lieutenant Governors, many College Presidents, Judges, ministers, members of Congress, members of the armed services, authors, news commentators, lawyers, physicians. All professions have delivered their messages to the assembly. Certainly the very first D. A. R. National

(Sixty Years in Texas D. A. R., continued:)

Officer ever to come to Texas was one who came on a mission of mercy--that was Clara Barton who was in Galveston with the Red Cross in 1900.

In passing the observation is made that all sessions of one Conference were held in the Senate Chamber of the State Capitol. And that for another the Vice President of the United States and his wife (who was then President General) were invited to be Texas' guests.

The first piece of printing Texas D. A. R. ever did was in 1904--their Directory. The next year the Year Book was published and a long list follows. Proceedings every year--fifty-five volumes and added to that a full directory every third year, two or three Press Relations Bulletins annually and also two Booklets--D. A. R. HISTORICAL MARKERS IN TEXAS; HISTORIC COSTUMES, with biographical sketches of the wives of Presidents and Governors of Texas--and two full length books, History of Texas D. A. R. and Pioneer Women in Texas.

In 1906 the first Vice President General from Texas was elected by the National Society. She was Mrs. Ira H. Evans of Austin. The State has had a long succession of National Officers since that time--fifteen of whom have been Vice Presidents General.

The first contribution Texas Daughters made was to the Memorial Continental Hall Building, and all their surplus funds were given to it for several years.

But in 1909 they launched a Texas Project--the University of Texas Scholarship. The sum determined to be necessary was raised in four years. That was the beginning of a policy that was pursued for the next forty years--that of placing a gift of substantial worth in every tax-supported College in Texas. The part of the work that has been completed is as follows:
North Texas State College, Denton--\$5,000.00--Student Loan Fund
West Texas State College, Canyon--\$5,000.00--Student Loan Fund
Sam Houston College, Huntsville--\$5,000.00--Student Loan Fund
East Texas State College, Commerce--\$3,000.00--Scholarship Fund
Sul Ross College, Alpine--\$3,000.00--Scholarship Fund
Texas Women's University, Denton--Museum of Gowns of Wives of Presidents and Governors of Texas
Southwest Texas College, San Marcos--Texana and Text Book Research Library
Stephen F. Austin College, Nacogdoches--History & Old Documents Library
A. & M. College, College Station--Junior Honor's Man Award--\$200.00 annually
Texas Armed Forces Award, to Navy Reserve, Air Corps, Coast Guard and Marines--wrist watches.

Texas D. A. R. undertook the placing of two bronze statues memorializing historic personages. The first was the handsome bronze statue of La Salle at Navasota. The second was the placing of the very fine Coppini bronze of George Washington on the campus of the University of Texas. Up to the present time this is the only statue of the first President of the United States in a public place in Texas.

(Sixty Years in Texas D. A. R., continued:)

When the great Carillon at Valley Forge was first planned, Texas Daughters pledged to give C sharp, the third largest of the fifty bells. In 1938, the bell, at a cost of \$6,000.00 was paid for and dedicated. But when all the bells at the Washington Memorial Chapel were dedicated, then a proper tower had to be built to house them. Texas contributed about \$10,000.00.

As was stated at the beginning, Texas Daughters' first work was to share in the expenses of building Memorial Continental Hall. As soon as that was paid for work was begun on the larger Auditorium, Constitution Hall. For that the members bought bricks, brass rails, feet of ground, columns, bronze doors, innumerable chairs, every item of the great building had its price tag. Piece by piece any sum from a few dollars to many thousands, it was sold to the loyal Daughters. That building, still the finest Auditorium in the Nation's Capitol is in use for concerts, lectures, organization meetings nearly every day of the year. Since 1949 it has been redecorated and air-conditioned. It together with Memorial Continental Hall is still a monument of outstanding beauty in the city of beautiful public buildings. Having built these two with emphasis on meeting space, the National Society realized that it needed more adequate quarters to house its records. Included are its steadily growing genealogical Library, which is rated the second finest in America; its extensive files on Communistic activities; its own membership records. It also needed additional offices for its staff of more than one hundred persons who carry on the work of the National Committees. In order to provide these offices, a third building program was launched soon after the close of World War II. Texas' gifts far outstripped any previous financial aid. They gave about \$42,000.00. The last notable gift to the National establishment in Washington was the conversion of the Texas Room in Memorial Continental Hall into a gem of a Music Room of the Early Republic period, furnished with authentic antiques.

The Approved Schools, a phase of D. A. R. National work thru the years, has always received most generous support from the Texas Daughters. One or more scholarships have been placed at all the schools and many chapters and individuals give scholarships annually to Kate Duncan Smith and Tamasee. The state has had a share in financing many of the buildings at both schools. The most extensive building attempted to date exclusively by Texas D. A. R. is Texas Friendship Cottage, dedicated at Tamasee, October, 1957.

Texas is honored to claim among its members Mrs. Atwell of Port Arthur. She and her husband, through Texas D. A. R., have given many magnificent gifts to the Approved Schools, among them the Boys Dormitory at Crossnore, the modern kitchen at Tamasee and a number of endowed scholarships.

Texas Daughters for the past twenty-five years have evidenced increasing interest in the two small tribes of Indians living within the boundaries of the state. Guided by suggestions of the Indian agents and ministers most closely associated with the Alabama & Coushattas, the chapters have given the much and various material aid that will help them to improve their lot and better fit them for present day living.

(Sixty Years in Texas D. A. R., continued:)

Member participation in marking historic trails and spots not only in Texas but across the nation is recounted in the published booklet of Texas Historic Markers. Historic houses have been preserved and restored all the way from Wakefield, Stratford, Kenmore to the French Legation and O'Henry House in Austin. They bought acres for Big Bend International Park and contributed to the bringing of the battleship Texas to anchor in Houston, to mention only a few. Finally they decided to have a house of their own in Austin, a place in which to store and display their accumulation of history. Maybe at some future time it will become a Texas Shrine...

This study cannot be closed without a review of a Texas project which is unique--Texas D. A. R. Forest. The forest, 150 acres, located in Jasper County, in the pine producing section of the state was given to the Society by Mr. and Mrs. W. P. H. McFaddin as a Conservation project in 1929. It was named a bird sanctuary, thousands of trees were planted on it, it was under fence and a caretaker kept down fires. It became simply another re-forestration acreage. Meanwhile great paper mills moved into East Texas. Tree farming was being taught. The D. A. R. trees had grown to a size to be cut. Their sale made possible some of the outstanding accomplishments of the last fifteen years. Now that the forest is a healthy growing and profitable tree farm, Texas Daughters are indeed grateful for that source of income that helps carry the expense of other projects.

Texas Daughters: the magnitude of their energy, the versatility of their dreams, their whole hearted interest and singleness of purpose have at the close of these sixty years brought them the accomplishments and satisfaction distilled in these verses penned by one of their own members.

BELOVED

Beloved,

It is a blessed thing
To give of treasured store
Ungrudgingly

For none
Has tasted life unless
He poured his heart into
Life's treasury

And he
Shall never die that leaves
One pure and fragrant gift
To memory.

A LETTER TO THE EDITOR:

(From James B. Lefler, 1324 W. Beddell, Fort Worth 15, Texas.)

"I had an interesting experience last Saturday I thought you might like to know about. I got a letter from a cousin I have never seen and didn't know I had. I knew very little about my father's relatives except who his brothers and sisters were. Several years ago I wrote a few letters hoping to contact some of them, but I got no answers.

About 6 months ago I wrote to the Postmasters of several small towns in Virginia and West Virginia where I knew my father had lived. I got the name of a Mrs. Sherry Lefler of Bluefield, Va. She didn't know much about her husband's family, but knew of a Clarence E. Lefler in Pembroke, Va. (It took her four months to get around to answering my letter.) Last Monday I wrote to this Lefler in Pembroke, enclosing a self-addressed, stamped envelope. Saturday, I got a letter from him. He is a son of one of my father's brothers. He knew he had an Uncle Bill (my father) but none of the family knew where he lived or what happened to him. My father lived in Pittsburgh, Pa., from about 1921 until his death in 1950.

Clarence Lefler, or Edd, as he is called, gave me the names and addresses of his brother and sister, and also the name and address of my father's only living sister. He said I also have an uncle living in W. Va., but he didn't know where. This uncle would be my father's only living brother. I immediately wrote letters to my new-found aunt and cousins.

I joined the Fort Worth Genealogical Society in January, but have been interested in my family tree for several years... After the war, my brother and I made a search of records in the Court House, Public Library, and Historical Society Library (in Pittsburgh, Pa.) and traced our ancestors back to German in the late 1700's. Our only claim to fame was a grandfather who was a millionaire but lost everything in 1898, and an ancestor who was married to a sister of James Blaine...

I plan on going to Pittsburgh this summer and will do some more searching... Whatever I find I will share with the Society and hope to be able to help someone." --Jim Lefler, May 4, 1959.

TEXAS HISTORY IN CATTLE BRANDS:

by Alma Lain Chambers, Drawer 98, Sanger, Texas

715

As cattle are rounded up either at market or on the range, a good cow-man can read brands like a broker reads ticker tape. These brands, the marks of ownership since before wire fences, are a safeguard against theft and any man who dared tamper with a brand was flirting with a hangman's rope. One instance, at least, in Texas history, records a minister of the gospel as assisting in hanging a cattle thief.

Great pride is taken in a clear-cut brand both by the owner and by the maker. A blacksmith who could make good irons, was much in demand as the one in Midland, Texas, in the early days who proudly burned the many brands that he had made into his shop doors. These doors are now museum pieces, brought to Austin to the State Museum there in the centennial year of 1936, when Texans became more conscious of their unique history.

The running 715 of the celebrated King Ranch is probably the best known of all Texas cattle brands. Situated near the southern tip of Texas, King Ranch extends over nearly a million acres. Captain Richard King established this brand when he became sole owner of King Ranch after seventeen years of ranching in partnership. The official registration was February 9, 1869. Both horses and cattle of world-wide fame wear this brand. The first Texas horse to win the Kentucky Derby was bred on King Ranch and the

(Texas History in Cattle Brands continued:)

famous breed of Santa Gertrudis cattle, the only true breed of cattle ever originated in this country, is another first for King Ranch.

Steamboat Captain King, by way of being a runaway and stowaway at age ten, making his trips on the Rio Grande, first conceived the idea of a great ranch in Texas. He made his first purchase of land in 1852. He made a cattle empire from the dangerous, isolated expanse of land in south Texas. Twice granted to Spanish ownership, only to be twice abandoned, this wild horse domain was Captain King's home for the rest of his life.

Two steamboat pilots, Captain King and his life-long friend, Mifflin Kennedy, drove the first herd of cattle up the trails to Abilene, Kansas. However, Captain King was more interested in breeding than in marketing cattle. He sold only steers, holding cows and heifers and constantly seeking better quality in both cattle and horses.

Called Wild Horse Desert in the early days, King Ranch caught many of these much-sought-after horses; the wranglers would catch as many as 4,000 mustangs in a single bush-trap.

The story of how the beautiful iron-grays came to the ranch has been related many times. With true Texas hospitality, Captain King befriended a lone, lost stranger and kept him overnight. The next morning, he gave him a guide out of the ranch and on his way. When the stranger was some distance from the ranchhouse, he ordered the guide to change horses with him and to take the beautiful iron-gray mount that he rode, back to Captain King. As he rode off, on the ordinary nag that he got in exchange, the stranger called out,

"Tell Captain King that Jesse James sends him the best horse he ever rode, with his compliments."

When Captain King died in 1885, it was his widow's request that Robert Kleberg become manager of the great ranch, then \$500,000 in debt. Robert Kleberg was Captain King's lawyer and his prospective son-in-law. He was married to Alice Gertrudis King in 1886.

Robert Kleberg, Jr., was the son of Robert Kleberg, born in Westphalia, Germany, who led a group of colonists to Texas in 1834. This group founded Cat Spring in Austin's Colony. Judge Robert Kleberg came to Texas because "he wished to live under a republican form of government with unbounded personal, religious, and political liberty free from petty tyrannies." He had the opportunity to fight for "unbounded personal, religious, and political liberty" the next year after he arrived in Texas. He took active part in the eighteen minutes at San Jacinto that changed the map of the U. S. A. and freed Texas. Sam Houston appointed him to the Land Commission in 1836 and he became president of it in 1838. Lamar made him Justice of Austin Colony. In 1846 he was made Judge of DeWitt County, spending his life in service for Texas. He was a reader of classic Greek and Latin and conversant in modern languages. He gave to his sons, Rudolph, Marcellus, and Robert Justus, both precept and example for their careers as valuable citizens.

(Texas History in Cattle Brands continued:)

Robert Kleberg, Jr., and Alice King were married Nov. 18, 1887.

Their children:

1. Richard Mifflin Kleberg, born 1888, was named for his grandfather King and his grandfather's lifelong friend, Mifflin Kennedy. He served his district in Congress from 1932-1944.

2. Henrietta Rosa Kleberg named also for two pioneers, her grandmother, Henrietta Chamberlain King, daughter of Rev. Hiram Chamberlain, a Presbyterian minister engaged in mission work with the Mexicans; and Rosa VonRoeder Kleberg, who although she lost her fine piano and art treasures in the Texas Revolution, made a home full of music, art, and love for her children and grandchildren. Henrietta Rosa was born July 17, 1889.

3. Alice Gertrudis was born January 9, 1892.

4. Robert Justus Kleberg, Jr., was born March 29, 1896.

5. Sarah Spohn Kleberg was born April 12, 1898.

Robert Kleberg, Jr., died October 10, 1932, and Alice Kleberg died July 30, 1944, at the ranch where she was born.

This great enterprise created by Captain Richard King is a story branded TEXAS by the running .

Ilene (Sims) Yarnell, 509 N. Tweedie Ave., Versailles, Missouri, is hunting parents' names of JACOB B. STEVENS (STEPHENS). The 1850 Census for Morgan Co., Mo. (no. 529), gives Jacob B. Stevens, born 1781, Ky., and wife, Rhoda _____, born 1803, Ky., and the following children born in Mo.: Thomas, Lavina, Sophonia, John V., Eliz., George, Basil, Amanda, Jacob, and James.

EARLY RECORDS OF HAMPSHIRE CO., VA., by Sage & Jones, 1939, page 126, gives will of JAMES MOORE, dated 1801, and lists his children. Mrs. Yarnell is seeking data on his parents and proof of parentage. James Moore appeared on Hampshire Co., Va. Census, 1782; where did he previously reside?

PARMELEE:

Dorothy H. Smallwood, 3200 - 16th St., N. W., Washington 10, D. C., has collected data on her grandmother's PARMELEE family and has put out 9 volumes and will do a 10th as soon as she finishes indexing the first eight volumes. She has made several trips to Europe and hopes to return soon to search for the parents of JOHN PARMELIN, SR., of Guilford, Conn., 1639. Dorothy will be glad to share her records with anyone interested and will search census records, D. A. R., etc., (local) gratis on PARMELEE, with its 200 ways of spelling the name.

KEEN, WILLIAMS:

Mrs. W. O. Clark, 2500 N. W. 27th Street, Fort Worth 6, Texas, telephone: MArket 6-5007, is looking for descendants and information about PHATE L. KEEN. He was born 23 October 1853, near Vicksburg, Miss. After the War Between the States, the family moved to Texas. The family was living in Dallas, Texas, when Phate got made at his Dad and ran away from home. He was about 20 years of age when this happened. His father was NICHOLAS KEEN, born 7 April 1831. His mother was SAMANTHA ALZADA WILLIAMS, born 6 April 1833. The family never heard from Phate after he left home.

WILCOXSON, THROCKMORTON, DANIELL:

Forrest Daniell, 3611 Sunset, Houston 5, Texas, has been working as a hobby on his family lines for about three full years. He contributed to the Wilcoxson Book recently published. JAMES WEBB THROCKMORTON, Governor of Texas, was his great uncle. Mr. Daniell will exchange information with those interested in his lines. He enclosed in his letter with dues to the Fort Worth Genealogical Society, a list of the census schedule microfilms in the Houston Public Library, Houston, Texas.

BOMAR, BOWMAR, BOMER, BOWMER:

E. B. Wood, Sr., P. O. Box 83, Oak Hill, West Virginia, wants data on the BOMAR family (sometimes spelled BOWMAR, BOMER, or BOWMER). During the Revolutionary War three Bomar brothers lived in Halifax County, Virginia, since migrated into the Carolinas, Georgia, and Tennessee and from there many went to Texas. Mr. Wood will gladly exchange information on this family.

(What's My Lineage? continued:)

HARRINGTON, GOODWIN, WITTEN, GREENUP, TRUEHITT:

Mrs. R. G. Harrington, Route 2, Box 69, Raymondville, Texas, wants to know the genealogy of DAVID HARRINGTON, who married a lady from Holland whose last name was GOODWIN. Their children, born 65 miles southwest of old Elizabeth Town, Hardin Co., Kentucky, were Bill, West, Tom, Oran, twins-- Ryan & Bryan, Green, Polly, Henry, Uleses, David, Lizzie, and Paulina Harrington.

She is also interested in SAMUEL CECIL WITTEN, whose mother's name was GREENUP, sister of CHRISTOPHER GREENUP, second governor of Kentucky; a county was named for him.

Mrs. Harrington requests data on parents of ARCHIE LEVI TRUEHITT, who came from 12 miles north of Springfield, Mo., in the 1800's to Denton Co., Texas. He was one-eighth Choctaw Indian, she writes.

SPEARS, RAY, WITHERSPOON, CRUSE, STEPHENS:

C. L. Ray, 720 North Main, Tulsa, Oklahoma, writes your editor that his great, great grandmother, SARAH SPEARS married JOHN RAY in Kentucky and they moved to Newton Co., Mo., about 1830. The Newton Co., Mo., Census (1850) shows both John and Sarah as 45 years of age, and also shows two sisters of SARAH SPEARS, Mary--65 and Millie--56 years old--all 3 born in North Carolina. The 1880 Census shows Sarah's parents born in N. C. This places the family in N. C. around 1760-1765, as the oldest girl, Mary, was born 1785. Since Sarah was born in 1805, they moved to Kentucky subsequent to that year. Sarah's husband, John, passed away about 1856. Mary and Millie are not in the 1860 Census. Sarah moved to Parker County, Texas, about 1883 with her son, WM. RAY--two of her daughters, Priscilla Ray and Cordelia Witherspoon had moved there previously. Sarah is buried near Weatherford and her Witherspoon descendants still live in Weatherford, Texas.

Mr. Ray writes that relatives by the name of CRUSE and also STEPHENS lived in Newton Co., Mo. Some Stephens relatives also in Weatherford, but he cannot exact their relationship. He assumes that Sarah and John wed in Kentucky--1850 Census shows JOHN RAY born in Ky., their oldest child, Geo. Thos. Ray born there, their next oldest child, Cordelia, born in Mo. Mr. Ray will greatly appreciate any information that can help him in his research.

MODGLIN (MADGLIN), TAYLOR, AXLEY:

Jane Sherwood, 106 E. 37th St., Boise, Idaho, sent the society a pedigree chart to add to our display and the following query: ELIZABETH MODGLIN or MADGLIN, b. abt. 1780, had two brothers, Henry and John. Was her father Trumon (sic) or Stringmore of N. C.? She m. BILLINGTON TAYLOR; their oldest son, MATTHEW MODGLIN TAYLOR, and some of the Modglin families left Jefferson Co., Ill., in 1855. The REV. M. M. TAYLOR settled in Gillespie Co., and the Modglins in Mason Co., in the forks of the Llano River in Texas. Mrs. Sherwood wants to contact descendants of the REV. M. M. TAYLOR and wife, REV. HANNAH SMITH AXLEY, who had eleven children.

Other lines on Mrs. Sherwood's chart are HOLLINGSWORTH, STENNELL, FLETCHER, DAY, FORD, NEELY, OATEN, SNOW, PRUITT, and PROCK.

KINSHIP TERMS:

The American Anthropologist, Volume 59, (1957), page 393, has an article by Munro S. Edmonson of Tulane University, on "Kinship Terms and Kinship Concepts", with charts showing kinship terms in different languages, such follows:

ENGLISH	FRENCH	GERMAN	DUTCH	IRISH	WELSH
father	père	Vater	vader	athair	tad
grand-	grand	Gross-	groot-	gor-	cu-
mother	mère	Mutter	moeder	mathair	mam
son	fils	Sohn	zoon	mac, fin	mab
daughter	fille	Tochter	dochter	inghean	merch
uncle	oncle	Onkel, Oheim	oom	bean-	rhieni
great	petit-		klein-	fear-	plentyn
aunt	tante	Tante	tante	comhua	cefnder

Mr. Edmonson writes, "The terms used in addressing and describing relatives are a source of constant wonder to the anthropologist...kinship terms define the biological or quasi-biological relationship between the persons, essentially three in number: 1) biological generation, i. e., parent, child, and the derivative 'child of my parent', or sibling; 2) mating or marriage, and 3) accidentals (including decedence, divorce, and adoption.)."

CHURCH RECORDS OF ENGLAND AND WALES:

--by Jack E. Hodge, 1805 Sixth Avenue, Fort Worth, Texas,
Presented to the Fort Worth Genealogical Society at the
May 25, 1959, meeting.

The Church of England is and has been the State Church since the time when church records were begun. In 1538, by governmental statute, parish ministers of the Church of England were required to keep a record of all christenings (baptisms), marriages and burials taking place in the parishes under their immediate jurisdiction. No uniform system of recording these events was suggested at that time, in fact it was not until 1754 that a standard of recording marriages was introduced, and not until 1813 that the recording of christenings and burials was standardized.

The act of 1538 was disregarded by so many of the parish ministers that in 1597 a further injunction was issued, enforcing the earlier act and demanding that a duplicate copy of the contents of the register be sent annually to the Bishop of the Diocese in which the particular parish was located. This copy of the register became known as the "Bishop's Transcript." In scattered areas of England and Wales these copies are known as "register bills" or "Archdeacon's Transcripts."

The first problem a genealogist will encounter in tracing his line from this country to England will be to attempt to locate the church and parish of the ancestor. Many times only the town of origin is known, and this may lead to difficulty.

Not every small locality was a parish. Not every small locality had a church, and it is not uncommon for the boundaries of a parish to include a number of small towns, hamlets, and villages. How does one make order of this chaos?

Two excellent reference books may be consulted to learn whether a place is considered a parish, and if not, of what parish it is actually a part. Lewis' Topographical Dictionary of England contains a list of the many towns, hamlets, etc., in the shires and details their ecclesiastical division jurisdiction. Lewis' book, however, is not ideal in every respect, for not every parish has registers that go back to 1538; in fact, of the more than 11,000 parishes who maintained registers prior to 1812, less than 700 have registers dating back to 1538. The remainder have registers starting at some later date.

An ideal source for the earliest entry in a specific parish is Burke's Key to the Ancient Parish Registers of England and Wales. This lists all parishes of the Church of England. Those churches of other denominations, known as Nonconformists, I will discuss later.

The very early registers usually contain only the date of christening, the name of the child, and the name of the father, while later baptism records give the name of the mother as well. (Exceptions to this will be found in a limited number of localities).

In some entries, the date of birth and the age at christening are given in addition to the date of christening, especially if the christening occurred a considerable time after birth. After 1813 (when standard entries were called for in printed register books), the registers often give the father's occupation and name his place of residence. Although such details are quite uncommon except for certain periods in certain localities, names of the grand

(Church records continued:)

parents may be recorded.

When the act of 1 January 1813 was enforced, the following information was required to be given in a standard form:

- 1) Baptismal date;
- 2) Christian name of child;
- 3) Given names and surnames of parents;
- 4) Place of residence; and
- 5) Quality, trade, or profession of father.

So much for the story of baptisms, as reflected in the parish register. The register also had a section devoted to marriages. What information can we find there?

Because the recording method was left to the local minister prior to 1754, the data recorded varied considerably...After 1754 a standard printed form was put into operation on which the following items were called for:

- 1) Names of the bridal couple;
- 2) Residence of both at time of marriage, (It became customary when one of the pair was a parish resident to enter the initials "o. t. p.", meaning "of this parish." If both were parishioners, the initials "b. o. t. p." were often used for "both of this parish.");
- 3) Whether the marriage was by banns or license;
- 4) The signatures of the witnesses;
- 5) The signatures of the bride and groom; and
- 6) The signature of the minister performing the ceremony.

These were the items requested, but many ministers still followed their own bent in recording items. Also after 1754, a separate section of the register was used for the recording of marriages by banns. Banns are the public announcement of a couple that they plan to marry. The announcement was read three times, and if there were objections to the union they could be voiced at the readings. The information to be given was as follows:

- 1) Names of the bride and groom;
- 2) Their ages (not always given);
- 3) Their residences; and
- 4) The dates on which the banns were read in the church...

The burial section of the parish register also includes much fine information for the researcher...Prior to 1813, the form of entry was left to the local pastor. The name of the deceased together with the date of burial was a universal minimum for entry; this was usually accompanied by additional information such as age of the deceased and relationship to a living person...

Now that we know what material is to be found in the registers, how may we obtain it? Generally, the manuscript registers are in the keeping of the local pastors or are deposited in a diocesan or county record office. Some ministers have permitted copies to be made of their registers to guard against loss and to increase their availability for study. After checking to find the description of the parish and its register, one will attempt to determine whether a copy of the register is available for study.

Libraries should be checked first. If the local library does not have copies of the records, one should consider checking the state library or another major library in the area. In both England and Wales there are county and diocesan record offices as well as libraries of societies devoted to the collection of genealogical and historical records. One outstanding

(Church records continued:)

collection is that of the Library of the Society of Genealogists. In this library there are over 20,000 books and 10,000 manuscripts; it is the one collection unsurpassed by any other private association in England. There are also a number of record and parish register societies, usually located on a county basis. There private collections are often placed in a public library for convenience. In the matter of the Bishop's Transcripts, it is customary to find that these contemporary copies of the parish registers have been deposited at the diocesan offices; there are localities in which they will be found in the custody of the county authorities.

Thus far we have discussed only records pertaining to the Church of England. Although the State Church of England was a dissenting movement away from Catholicism, many other dissenting movements have been nurtured in England. These groups, Catholic and Protestant, are known in England as Nonconformists. Nonconformist sects will be found to differ in population intensity and distribution due to varying historical influences. Often the types of Nonconformist groups in a given area can be determined through a history of that locality or through an ecclesiastical dictionary.

Although it is more difficult in many instances to locate Non-Conformist records than the records of the Church of England, it is by no means an impossible task. In 1837 the Registration Act set into motion a survey of records kept by the Nonconformist groups. These groups were to submit copies of their records to the Registrar General, Somerset House, London. Those records that could be unequivocally authenticated remained in the possession of the Registrar General. The collection deals with England and Wales only. A complete list of this collection may be found in the work, Lists of Non-Parochial Registers and Records in the Custody of the Registrar of Births, Deaths and Marriages, London: Her Majesty's Stationery Office, 1841. (A copy of this work is in the Genealogical Society Library, Salt Lake City, Utah, Call #R6A37).

The records of those denominations which did not deposit their registers (such as the Roman Catholic, the Jewish), for the most part can be located. The Quakers have a complete set of records throughout the history of their organization. Some groups have established central archives for their collections; others have placed some of their old registers in public and private libraries. In any event, the present minister of a congregation may either have the original or a copy of the record or know where one may be obtained. It is certainly worth the effort to contact him if all other sources fail.

ATTEND JUNE 29, 1959, FORT WORTH GENEALOGICAL SOCIETY MEETING:

The next meeting of the Fort Worth Genealogical Society will be held the last Monday evening in June, June 29, 1959, at 7:30 P. M., in the auditorium of the Fort Worth Public Library. This will be a workshop meeting. Members and guests are asked to bring their pedigree charts, coats of arms, lists of books in their personal libraries, pencils, pens, and notebooks. Mrs. Charles L. Sarrazin will be present to discuss chart making and the correct manner of noting references. This informal meeting should help us all to help one another in our search for ancestors. Tables will be set up for us to display our working charts on and we can visit with one another and perhaps suggest ways of extending and perfecting our pedigree research. It is possible that by studying one another's charts we may find that some of us are distant cousins or that our ancestors knew each other in bonny Scotland or in Plymouth Colony. The new charts of the society will be passed out for members to fill in, if they like, to be filed with the society's secretary for safe-keeping.

Anyone interested in genealogy, heraldry, local and county histories, and related subjects, is invited to attend this May meeting. May we suggest that you come a little early and lay out your material and be ready to go to work at 7:30 P. M., when the meeting will begin?

REPORT OF THE JUNE 29, 1959, FORT WORTH GENEALOGICAL SOCIETY MEETING:

The twenty-seventh meeting of the Fort Worth Genealogical Society was held the last Monday evening in June, June 29, 1959, in the auditorium of the Fort Worth Public Library. Members and guests attending this workshop meeting found tables and chairs set up for eighty people. The arrivals overflowed into single chairs set up in the auditorium. Members visited from table to table, getting acquainted and looking at the charts and coats of arms brought by most of the members.

A short business meeting was held, and then Mrs. Charles L. Sarrazin was introduced. Mrs. Sarrazin discussed various kinds of charts. She passed around many different types of charts for the members to view, and she visited the various tables noting materials of interest on each.

Mrs. Buford Curtis had an usual new set of forms called, YOUR FAMILY HISTORY, by A. L. Tucker. These forms were designed to have their legal place of importance in every family with affidavits with them that serves to make each record a legal document. These printed forms are the most complete of any your editor has seen. If any of you are interested in knowing more about them, you may write to the Arrow Printing Company, 3245 South Adams, Fort Worth, Texas.

Mrs. Wm. H. Watts, Jr., 1017 Usher, Benbrook, Texas, recording secretary of the society, displayed a compact small notebook with folding charts and records that she uses in her genealogical work.

This is the first workshop meeting of this type held by the society and comments from members on this type of meeting will be appreciated.

"SURE-LOCKED" HOLMES LOOKS AT GENEALOGY:

"Genealogical detection is, or ought to be, an exact science, and should be treated in the same cold and unemotional manner. We are tempted to tinge our pedigrees with romanticism, which produces much the same effect as if you worked a love story into the fifth proposition of Euclid."

--Sir Arthur Conan Doyle and Deckler.

LETTERS TO THE EDITOR:

Mrs. Armond Kainer, 2015 Crocker Street, Houston 6, Texas, the immediate past First Vice-President of the Houston (Texas) Genealogical Forum, writes as of July 6, 1959, as follows:

"Mr. Charles Lane handed me your Vol. 2, No. 6, publication of your Fort Worth Genealogical Society Bulletin for June 1959.

I am amazed at all you have accomplished in securing books. We here in Houston are struggling but hope to do better soon.

I am particularly interested in the No. 10, on page 3--YAZOO COUNTY STORY (Miss.): Yazoo Hist. Assn., #976.249Y. I am seeking information concerning a CHARLES CASON, who died in Yazoo City, and his wife, Elizabeth and their son, John, who died there also...

The Casons were in Miss. and La. as early as 1785 and as late as 1804, when Charles Cason's will was recorded in Natchez.

I am herewith enclosing my check for \$2.00 for a year's membership in your society.

Please inform me if Mrs. Charles L. Sarrazin has other Mississippi records. If she has and will advise me of them, I shall be glad to have her address..."

(EDITOR'S NOTE: Mrs. Charles L. Sarrazin, 2437 Medford Court East, Fort Worth, Texas, is an authority on the records of Mississippi, Louisiana, North and South Carolina and European genealogical research.

We advise all genealogical society officers to request that their members make their wills now leaving their personal archives and books to their library and a cash bequest, if possible. In many families when a genealogist or family historian dies, these papers and books become lost forever and much good genealogical research is destroyed. Your local public library or your state archives can preserve your family records for future generations to profit from all the time, energy, and money you have put into genealogy.)

Miss Dorothy C. Barck, Librarian, NEW YORK STATE HISTORICAL ASSN., Fenimore House, The Farmers' Museum, Cooperstown, New York, writes on June 18, 1959, "Thank you for sending us the May issue of your society's bulletin. We are interested to learn of the activities of your genealogical group and of all that you are accomplishing in gathering a library and in keeping your members informed about genealogical activities around the country."

LETTERS TO THE EDITOR CONTINUED:

Karl Friedrich von Frank, Schloss Senftenegg, Post Ferschnitz, Niederösterreich, Austria, writes as of May 25, 1959, as follows:

"To comply with your request, I will give you a short story of my life. I was born in Vienna, Austria, on July 6, 1894, the son of Karl Joseph von Frank and Louise *née* Valentin. Since my father owned estates and a glass factory in Haida, North-Bohemia (now Czechoslovakia), I spent my youth there, and was graduated from the State "Real-Gymnasium" (German classical college) in Tetschen on the Elbe, North-Bohemia, in 1913. The Castle Tetschen belonged to the Prince von Thun und Hohenstein with whom my family was friendly. Thus, as a student, I was often a guest at the Castle. My professor of history also acted as archivist and historian to the Princes von Thun und Hohenstein, compiling a *history of this family*. I became interested in his work and was of assistance to him. This is the manner in which my interest in genealogy was stimulated. In 1910 I purchased the first genealogical book which started my genealogical library, which now contains about 20,000 volumes today..."

(EDITOR'S NOTE: Karl Friedrich von Frank is the recognized authority on Austrian and German genealogy and heraldry. His gift to the society of the rare KRESS FAMILY genealogy is priceless. He lives in Castle Senftenegg, which he owns, the life of what we Texans would call "a country gentleman." His complete autobiography will be inserted in the back pocket of this beautiful KRESS FAMILY volume, to increase its value to all genealogical and historical researchers who use it.)

Miss Marie Dickore, 3411 Clifton Avenue, Cincinnati 20, Ohio, has presented our library with three of her papers which she has published as Editor of the Genealogy Department of the BULLETIN of the HISTORICAL AND PHILOSOPHICAL SOCIETY OF OHIO. The April, 1959, issue, Vol. XVII, No. 2, BULLETIN, also has an article by Dale Warren on the Tafts of Uxbridge, tracing this family to the patriarch Robert, who emigrated from England about the time King Phillip was making trouble for the Colonists. Robert Taft's sons were Thomas; Robert, Jr.; Daniel, Joseph; and Benjamin. This article carries a rather complete TAFT family history for anyone interested in this great surname.

This excellent woman, Mrs. Frances Cook(e) Lipscomb Van Zandt, born in Louisa County, Virginia, 3-4-1810, died April 8, 1909, in her 94th year. She had married Isaac Van Zandt on December 18, 1833, and they removed to Texas in 1839, where her husband became very prominent and whose usefulness was terminated suddenly by death from yellow fever in Houston in 1847, leaving her with five small children, whom she reared to become the most prominent and influential citizens of Texas.

The children of Ann Day Cooke and William Lipscomb (son of Thomas Lipscomb and his wife, Mary (Smith) Lipscomb) were as follows:

- 1) Eliza Lipscomb married James Collins, and had three children.
- 2) Granville Lipscomb married three times--two sons of his second marriage were William and David Lipscomb who were noted speakers and teachers in middle Tenn.
- 3) William Farmer Lipscomb married and had three children.

- 7) Ann Lipscomb married John Brown and lives at Cooksville, Miss., and has a son and a daughter.
- 8) Frances Lipscomb married Isaac Van Zandt. q. v.
- 9) Tappy Lipscomb married Clinton A. Hunt, and they had one daughter.

FAMILIES FAMOUS IN TEXAS HISTORY CONTINUED:

Isaac Van Zandt, born July 10, 1813, Tenn.; d. 11 Oct. 1847, Texas; m. 18 Dec. 1833, to Frances Cook(e) Lipscomb, was the son of Jacob Van Zandt, 1788-1833/4, who married in 1812 to Mary Isaac(k)s, b. 1796; d. 18 Jan. 1840.

Jacob Van Zandt (1788-1833/4), was the son of Jacob Van Zandt, d. 1820, came from Penn. or N. J., to Franklin County, Tenn. He was a Captain in the American Revolution. He married in Rutherford Co., N. C., 1782, to Catherine Moore. (Their son Isaac Van Zandt had a daughter Nancy, b. 1814, N. C.; d. 1887, Franklin County, Tenn., married WALLACE ESTILL).

Captain Jacob Van Zandt of Revolutionary fame was the son of Garrett Van Zandt, born after 1700, died before 1782.

Garrett Van Zandt was the son of Wynant Van Zandt, 1683-1786, who married secondly after 1700.

Wynant Van Zandt was the son of Johannes Van Zandt, born before 1663, d. 1724, who came from Holland in 1682, and was in New York City, 1685-1703, married 1681, Margaret Vanderpool.

Samuel Isaacks II. was the son of Elijah Isaacks. Elijah Isaacks was the son of Samuel Isaacks I. of Wales and North and South Carolina.)

A GENEALOGICAL QUOTATION:

"Genealogy has been called the science of snobs, and certainly the strangest of intellectual (and even actual) crimes have been committed in its name. That it is a fascinating subject no one will deny; it's also a vast one, and as far as human stupidity is concerned there's only one aspect we need examine--the monkeys assiduously climbing the family tree of others, the 'manufacturers of noble descents.' I do not mean to refer here to the serious and reputable genealogists, like the learned editors of Debrett, of whom there are many, but rather to those servile creatures who have used their knowledge and literary skill in order to concoct fantastic genealogical tables for princes and nobles. Marshaling a huge array of facts, they have attempted to prove that their patron's ancestor, say fought at Troy against the Greeks--or has a place in the Old Testament as king or prophet."

WRITINGS ON TEXAS BY WOMEN PRIOR TO 1865

By Mrs. R. N. Grammer, 4240 Norwich Drive, Fort Worth 9, Texas,
(A paper presented to the Fort Worth Genealogical Society,
at the July 27, 1959, regular meeting).

To those of who are, say, third or fourth generation Texans, there frequently comes the question--Why did great-great grandpa come to Texas? What influenced him to make that long, hard journey?

In the earliest American colonies narratives, letters, and pamphlets were widely written. The first leaders of both the southern and northern colonies conscientiously noted their observations. And others in the groups, though not so well known historically, also contributed to the literature of the first frontier of America.

History repeated itself on the Texas frontier. Settlement followed colonization, and writing followed settlement. Prominent leaders wrote to interest people in coming to Texas; their followers, both men and women, recorded their impressions of the new country. Naturally the men were under greater necessity of writing, but the women wrote a surprisingly large amount.

My study of the writings of women in Texas before the close of the Civil War included published material in the form of books and contributions to the newspapers, as well as unpublished material in the forms of diaries and letters.

This evening I shall talk about certain books.

Of course there were many causes underlying the movement of peoples from there to here, but I like to think that Grandpa had heard about Texas and what it had to offer through these books, written by women in Texas before 1865.

These women writers, who sought to record life in early Texas, whether they came as settlers or as visitors, were alike in their appreciation of the natural beauties of the state, in their loyalty to the new region, and in their desire to describe the folk and the community in which they stayed.

The first book that Grandpa may have read was that of Mary Austin Holley, for no doubt her writings drew settlers from all sections of the country. She has the distinction of having written "the first descriptive and historical book on Texas in the English language." She wrote consciously to tell the people of the United States and England about the 'terra incognita.'

Mary Austin Holley came to Texas in 1831 upon the invitation of her cousin, Stephen F. Austin, and she had not been here long when she began to gather material from every source. She met some of the oldest colonists and most intelligent men of the country, from whom she received valuable information concerning the history and geography of Texas. And I'm sure she leaned heavily on Stephen F. Austin.

(Writings on Texas. continued:)

In 1833 her first book was published with this complete title--

Texas: Observations, Historical, Geographical, and Descriptive in a Series of letters, written during a visit to Austin's Colony, with a view to permanent settlement, in that country in the autumn of 1831.

Mary Austin Holley knew that her book was what we might call 'frontier advertisement', but let's not condemn her, for she took the only means she knew of helping her cousin in his colonization work. And if you have read her book, do not think her insincere because her observations sound somewhat extravagant, and a few of her statements contradictory. She genuinely loved this land and sang its praises, as a good colonist should have done.

The letters are informally written, a style chosen perhaps to please a person contemplating a move westward. The first eight letters in an inviting tone give all the information necessary for the immigrant, --which route to come, what to bring, what to expect in the 'general face of the country', the climate, the towns, the inhabitants, and then tucked in inconspicuously are choice bits of legendary matter, such as the story about the bee always preceding the white man, and the founding of Mexico City.

The ninth letter is a commendation of the Austins, father and son. In closing she writes:

We do injustice to the subject, and to the Austins by regarding them merely as the founders of the colony which bears their name. They have, in fact, been the movers, either directly or indirectly, of the whole North American and Irish emigration to this country, and, whatever good may result to the great cause of liberty, of science, and human happiness by the introduction into this vast region, of the English language, and those principles of republican and constitutional government, which always accompany that language, may be very properly attributed to them--the father for conceiving the idea of such an enterprise, and the son for successfully accomplishing it.

Mrs. Holley's second book about Texas, published in 1836, and called simply Texas was also written to encourage immigration. This book, in chapter form, is hardly more than a repetition and partial expansion of the first one. And lacking the personal element which letters give, is less attractive reading. However, I'm sure, that both books found their way into many homes in the states and with their commanding pictures of opportunities, awakened the desire to move to Texas.

Or again, it may have been the two books of Mathilda C. Houstoun that impelled families to leave their homes to start life anew on the frontier.

(Writings on Texas...continued:)

This Englishwoman, Mrs. Houstoun, was about 22 years old when, in company with her husband, she visited Texas in the early forties. She recorded her impressions in diary form and upon her return home published them in a book, entitled Yachting in the New World. About 1847 she made another trip, and likewise made notes from which she wrote her second book, called Hesperos.

Yachting in the New World, the second publication about Texas from the pen of a woman, is a thoroughly gratifying picture. Before leaving England, Mrs. Houstoun had read a history of the Republic of Texas which she thought surely misrepresented the country and its peoples. She eagerly anticipated coming to Texas to see for herself.

They left Blackwell, England, on the schooner Dolphin, and in due time reached New Orleans. There they were delayed 'while the schooner lay on anchor waiting for a change and variety.' When she saw the men man the windlass, and heard them sing

The saucy schooner off she go
Merrily on to Texas Ho!

she felt an exhilaration which she never seemed to have lost during her entire visit.

Realizing that she knew little about Texas and that others were also in ignorance, she was most circumspect in recording the information which she gained from reliable sources and from her own observations.

In a simple straightforward manner she gave information about the Republic, including an account of the War with Mexico and the Battle of San Jacinto.

The charm of Mrs. Houstoun's writing, however, is not in the factual chapters, but in those chapters in which she comments on sights unusual, or at least unusual to her. Many things about Galveston interested her. "It boasted but three trees and they were small...The houses raised from the ground, she thought wise to keep out the snakes, to say nothing of the pigs."

From this book one may learn...that there were three newspapers in Galveston...dinner was served at 2 o'clock at the Tremont House, with fifteen minutes allowed for eating...knives were used in preference to forks by the indigenous habitants of the country...a rest on the verandah followed dinner.

Mathilda Houstoun thought that the Texan ladies generally led rather secluded and quiet lives. They engaged in needlework of some kind or other, but the then "universal art of crochet was unknown to them." She explained it to them and would have taught them the stitch 'only the city did not have the requisite thread nor could the blacksmith make a needle.'

(Writings on Texas...continued:)

In all her associations with the Texans she found them courteous and civil, in every way contradictory to what she had heard and read.

The meeting with President Houston was one of the highlights of her visit. In relating this incident she said--

It has been our eager wish to fall in somewhere with the President of the Republic of Texas, whose signal victory over Santa Anna in 1836, together with the eminent services which he, during a series of years, rendered to the native tribes or Redmen as they are called, were constant themes of conversation and of praise. That, in order to make ourselves known to this 'rough and ready' but most distinguished lawyer and soldier, it would be necessary to undertake an excursion into the interior of the country, soon became apparent and therefore we...took berths on a small steamer that plies from Buffalo Bay, up the river of the same name to Houston, the capitol, and seat of government of the Texas Republic...There was fortunately water enough to enable us to cross the Red Fish Bar, and we were soon steaming up Buffalo River,,,the voyage lasted 24 hours...the city of Houston is beautifully situated...Our chief end was answered, for we received a visit from the conqueror of San Jacinto and the friend of the Redman...As is invariably the case on the introductions of Americans--either to one another or to foreigners--much shaking of hands, together with considerable use of the monosyllable 'Sir' took place between us and General Sam Houston.

Next there followed a description of Houston's dress and brief statements of his character as she had heard it from others during her visit. Then in speaking further of Houston she made this interesting and amusing comment:

"Like most Americans whom I have known, he is proud of being able to clearly prove his descent from an English, or rather in his case, from a Scotch family. He claimed cousinship with us at once...We parted with mutual professions of esteem, and an amount of handshaking."

When Mrs. Houstoun came again three years later, she was agreeably surprised by the visible improvement in Galveston Island. She was glad to greet once more the inhabitants whom she had met before. She was astounded by the immense number of German immigrants 'pouring in by whole ship loads.' She traveled again to Houston and even to New Washington. Everywhere, as in Galveston, her party met with 'settler hospitality' which she said she could not praise enough.'

There is no reason to think that she set herself the task of refuting the historian whose book she had read, but that is what she did in effect in her two books, which show us that she was an intelligent, keenly observant woman, and one of the staunchest admirers that Texas had in her earlier days.

(Writings on Texas...continued:)

In 1845 there appeared a book called Texas and Her Presidents. It was written by one Corinne Montgomery, also known as Cora Montgomery, and later as Mrs. J. M. Cazneau. From her two published books, some letters, and newspaper articles, it may easily be seen that she was the one woman of the early writers vitally interested in politics, a subject at that time to be frowned on by the 'Ladies.'

Texas and Her Presidents, her first book, was written at the solicitation of friends. Then the publishers demanded a preface or introduction, explaining the question of annexation of Texas. She complied with both requests and contributed to the literature of Texas an attractive little paper bound volume which sold at the nominal price of 25 cents.

The annexation story turned out to be the story of Texas under four flags. The sketches of the presidents followed this introduction, and there was a third part, designed to advertise Texas, which told of the products, rivers, and forests. As an added feature the book contained half page pictures of selected scenes. Three of the most interesting were the President's house at Austin, the mission at Goliad, and the citadel at San Antonio--the Alamo, as we know it.

Miss Montgomery perhaps has a better claim to being a 'Texian' than any of the other women who wrote, for she was in the region longer. Her writings merit attention and should be appraised, according to the standards of that time, as exceedingly good.

There was a book called Texas in 1850 which completed the picture of Texas for the prospective immigrant. It took care of his worries about religion. Melinda Rankin, feeling that Texas deserved recognition and that a history 'relative to her true character and condition would be an important service in enlightening the public mind abroad' set herself to write what she called a Complete and correct delineation of Texas.' So we have a view of Texas in 1850 through the missionary eyes of a New England woman.

About 1865 there was published another book of the frontier, called Following the Drum, a mis-leading title, there's no denying. The writing may well be classified as a travel talk from upper New York state to Ringgold Barracks, Texas, on the lower Rio Grande in the year 1850. Its author was Terese Griffin Vielé, the wife of an army officer. Her impressions are curiously enjoyable; her descriptions show astute observation and artistic appreciation. Her character sketches are good. And as in the other writings by women, there was a part which told the story of the history and colonization, the early missions, and the coming of the Anglo-Americans. All in all, Texas was presented 'as a new field, full of intense and varied interest.'

In conclusion, may I say that the writings of these five women in early Texas, Mary Austin Holley, Mathilda Houstoun, Cora Montgomery, Melinda Rankin, and Terese Vielé, possess no intrinsic literary value, but they are of inestimable worth in giving a picture of early Texas, and in preserving for us the way of life of its peoples. And...I just like to think that one or the other of the books helped Grandpa make up his mind to come to this new land of opportunity.

DO YOU PLAN TO PUBLISH YOUR FAMILY HISTORY?

One of the purposes in organizing the Fort Worth Genealogical Society was to encourage the publishing of family histories, and to raise the quality of such published works. In order for a family history to be acceptable to expert genealogists and historians, the book must be well referenced, for without proof of your statements your published work might well be classed as folklore.

To help you prepare for publication, may we suggest that without further delay you rush to the nearest bookstore or library and ask for Homer Carey Hockett's THE CRITICAL METHOD IN HISTORICAL RESEARCH AND WRITING, published by the Macmillan Company of New York in 1955.

This book was written to be used as a text or reference for use by graduate students who were writing 'essays for advanced degrees in American history...' It will give you the correct form for references in footnotes. It will train you in the historical method of research. It will explain the best way for you to determine the accuracy of different authors. It will enable you to publish a family history that will be treated with dignity and respect by all who use your work.

WILLIAMS, BANKSTON: Mrs. Bill J. Bexley, 1319 North 4th Street, Temple, Texas, writes that Mr. Marion Worthy has been doing some research for her and he wrote and advised her to insert a query in the Bulletin as 'many genealogists throughout the U. S. A. read it.' After such flattery ye olde editor is delighted to insert this query for Mrs. Bexley--Data wanted on JALLA WILLIAMS, born 1799, N. C., removed to Meriwether Co., Ga., 1830. His wife was Joanna ? What relation, if any, is Widow Nancy WILLIAMS of same county? Mrs. Bexley also wants to exchange data on NATHAN BANKSTON.

VANHOOSER (VANHOOSIER, VANHOOZER, VAN HOSEAR), BIRDWELL, JADWIN, UPCHURCH, ROWLAND: Betty McIver Gano (Mrs. John Gano), 2524 McClendon, Houston, Texas, asks who were the parents of JESTON AGNES VANHOOSER, born in Giles Co., Tenn., 19 Feb. 1839; married (1855) JOSEPH ABRAHAM BIRDWELL (also of Giles County)? She died 14 August 1889. They removed to Texas about 1867, settling in the Blue Ridge community. Mrs. Gano also request data on JESTON VANHOOZER, McMinnville, Tenn., a survivor of the War of 1812. GEOLOGIST, GENEALOGIST, OR WHAT EVER YOU ARE:

The Fort Worth Civitan Club News editor knows that 'blood is thicker than water' and he evidently thinks it's thicker than oil too, for he announced in the July 7, 1959, issue, Vol. 19, No. 1, that their speaker for July 14th was to be Mrs. Edna Perry Deckler, who is president of the Fort Worth Geological Society, and her subject is "Your Family Tree." A feature writer on the STAR-TELEGRAM read this club news and asked for an interview for Sunday's paper. (We're still wondering if the Civitans and the STAR TELEGRAM were expecting an oil-smeared lady in steel helmet, leather boots, and G. I. overalls!).

LINES TO THE EDITOR:

Edw. T. Roberts, Riverside, Private Bag, Christchurch, New Zealand, writes on 27th July 1959:

I was surprised to receive in the mail two days ago a copy of THE GENEALOGICAL SOCIETY BULLETIN put out by your society. I have read it with interest and note you meet in the auditorium of the Public Library and have been doing so for two years. Evidently the folk around your way are much more interested in pedigrees, etc., than the average New Zealander, for I am rather a Lone Star ranger out here...

By surface mail, I am posting a small booklet relating to our family together with several other items of heraldic interest..."

Captain Joseph Salzman, Director of the INTERNATIONAL INVESTIGATION DETECTIVE SERVICE, P. O. Box 956, Houston, Texas, writes also on July 27, 1959:

"...(I've) been doing Genealogical Research investigation since August, 1919. If there is anyway I can be of help to you, please call on me at any time..."

CONNECTICUT STATE LIBRARY, R. C. Sale, State Librarian, Hartford 15, Connecticut, writes on July 27, 1959:

ATTEND THE AUGUST 31, 1959, FORT WORTH GENEALOGICAL SOCIETY MEETING:

The next regular meeting of the Fort Worth Genealogical Society will be held the last Monday night in August, August 31, 1959, at 7:30 P. M., in the air-conditioned auditorium of the Fort Worth Public Library. Mr. C. George Younkin, archivist, will speak on "Indian Records," and show a film on the National Archives. There will be a question and answer session after his talk. Mr. Younkin is an expert on Indian records in the archives of the United States government and perhaps he can help you in your search for that American Indian ancestor that family tradition may have whispered about down through the ages, like the beloved Will Rogers' kin who, he claimed 'were here to meet the Mayflower.'

Anyone interested in genealogy, heraldry, local histories, archives, and related subjects is invited to attend this August 31st meeting.

REPORT OF THE AUGUST 31, 1959, FORT WORTH GENEALOGICAL SOCIETY MEETING:

The twenty-ninth meeting of the Fort Worth Genealogical Society was held the last Monday evening in August, August 31, 1959, in the auditorium of the Fort Worth Public Library. Mr. C. George Younkin, archivist from the Federal Records Center, Fort Worth, Texas, showed a color-sound film on the National Archives and spoke on "Indian Records." Mr. Younkin's vast knowledge of Indian tribes and their migrations enabled him to explain how and why and when certain records were made that are now available to the interested historian and genealogist.

The by-laws of the Fort Worth Genealogical Society, Article III, Section 3, Paragraph 5, were revised to read as follows:

Any applicant who applies for membership for the first time prior to November first of a year shall pay the full fiscal year's dues for such year; any applicant who applies for the first time for membership after November first of each year, shall pay the full fiscal year's dues and shall be considered a member from the time accepted thru the following fiscal year; no part year dues shall be accepted and all memberships other than as stated above shall begin and end with the fiscal year and no former member applying after November first of a year shall be entitled to the above extended membership time.

(The fiscal year of the Fort Worth Genealogical Society is from the last Monday in January to and including the day immediately preceding the last Monday in January of each year.)

It was announced that the next regular meeting of the Fort Worth Genealogical Society will be held on the last Monday evening in September, September 28, 1959, at 7:30 P. M., in the auditorium of the Fort Worth Public Library. Mr. David Whatley, a director of the society, will speak on "Genealogical Research." Anyone interested is welcome to attend this September 28th meeting of the society.

WHATLEY FAMILY REUNION

The annual WHATLEY family reunion was held August 9, 1959, at Dairyland Farms, Opelika, Alabama, with more than 400 guests present. Name badges were given to identify the more than 150 out of town members from 7 states. A great grandson of SIMEON WHATLEY, one of the early settlers of Lee County, dressed in the best 1890 haberdashery available, portrayed this Whatley ancestor and told his descendants about his life and early days in Lee County.

Of special interest to all was the genealogical study of the WHATLEY family now being done by David Whatley, 5013 Glade Street, Fort Worth 14, Texas. David, pursuing this as a hobby, told much about the family not heretofore known. He stated that the WHATLEY families, as early as the sixteenth century in England were wheat growers, thereby receiving the name WHEATLEY, later made WHATLEY.

A GIFT FROM NEW ZEALAND:

Edw. T. Roberts, Riverside, Private Bag, Christchurch, New Zealand, has presented the Fort Worth Genealogical Society with his genealogy, A Brief Record of Our Family, published in 1952, and family charts and heraldic material, showing the right to bear arms, which will be placed in the library. In the introduction, Mr. Roberts says:

With Celtic people generally high birth and ancient genealogy find an honoured place in their culture. A Highlander wears the tartan of his clan with a pride that is irrepressible, and every son of Eire descends from one of the princes who ruled a portion of the Emerald Isle to the satisfaction of everyone but the conquering English, who displaced him. Both can name their chieftains, whether it be of the Lindsays or the O'Neills of Clandeboy, and each considers himself all but the equal of his chief. The Welsh too had a tribal system but it has lapsed. However, the Five Royal Tribes of Wales and the Fifteen Tribes of North Wales are still more than ancient history, for many folk still claim descent from a particular tribe. They can name the Pencenedl or "Chief of Kindred."

WHAT'S MY LINEAGE?

GREGORY:

W. F. Gregory, Route #2, Kirkland, Texas, wants to know the relationship of JAMES HENRY GREGORY, 1801-1885, born in Ireland, and spent most of his life in Tallapoosa County, Alabama, and WILLIAM GEORGE GREGORY, 1852-1929, who spent his life in or near Tallasee, Ala., and Wood County, Texas.

MCLEAN, DUMAS, AND ALLIED LINES:

Mrs. J. G. Brannon, 1128 Clara Street, Fort Worth 10, Texas, is searching for data on the background of DANIEL L. MCLEAN, father of DANIEL L. MCLEAN, JR., (1859-1886. DANIEL L. MCLEAN, the elder, married REBECA SHAMBURGER. Mrs. Brannon also wants information on MARGARITE A. DUMAS, b. 12-29-1838; d. 1-23-1877, wife of Rev. Geo. Peter Cosby FONTAINE, (1836-1919), whose daughter, MARY CAROLINE FONTAINE (1862-1921) married DANIEL L. MCLEAN, JR. (1859-1886).

POST, HISEY, BARRON, CAPPS:

Mrs. Virgil H. Post, 619 Dallas Avenue, Lancaster, Texas, is tracing the genealogy of JOHN SYDNEY POST, born February 28, 1876, Union Parish, Louisiana; married Dec. 24, 1896, to EFFIE HISEY, born Feb. 23, 1880, Dallas, Texas. They resided at Haskell, Spur, and Waco, Texas. JOHN SYDNEY POST'S father was JOHN SYDNEY POST (1842-1912), who m. SARAH EMILINE BARRON (1839-1910). The parents of EFFIE HISEY were DANIEL G. HISEY (1847-1926) from Pa. of Dutch origin, and MARIAH MELINDA CAPPS (1848-1936) from Kentucky.

THOMAS AND ALLIED LINES:

Mrs. T. C. McCurdy, 5687 Texoma Drive, Denison, Texas, is the great, great granddaughter of JOHN THOMAS, SR., whose son JOHN THOMAS, JR., was born in Virginia. In 1797 John, Sr., took several grants of land in Buncombe County, North Carolina. Buncombe Co., N. C., was formed in 1792; Henderson Co., N. C., was formed from Buncombe in 1838. Transylvania Co., N. C., was formed from Henderson County and from a small part of Jackson in 1861. From the deeds it is evident that John, Sr., a widower, died in 1812 or before August, 1813. JOHN THOMAS, JR., born in Va., died about 1818. His wife was LAVINIA JANE (SMITH) THOMAS, from Greenville Co., S. C. Her brother, MICAJAH SMITH, lived at Gap Creek Settlement, S. C., not far from the N. C.-S. C. border line. Lavinia was born in Virginia, according to the 1880 Transylvania Co., N. C. Census.

Sons of JOHN and LAVINIA (SMITH) THOMAS were 1) ROBERT THOMAS, first Sheriff of Henderson Co., N. C., 1839-1858, who married SUSAN REESE, and had issue--WILLIAM ROBERT THOMAS AND JAMES THOMAS; 2) MICAJAH S. THOMAS (possibly William Micajah S. Thomas) born 1808-died 1883, married 1829 to ANNA CAROLINA HIGHTOWER, born 1813, daughter of EPAPHRODITUS HIGHTOWER and his wife, LUCY TERRY HIGHTOWER. (Epaphroditus was State Senator from Buncombe Co., N. C. in 1815. LUCY TERRY was the daughter of CAPT. JOSEPH TERRY and his wife, LUCY HATCHER TERRY of Greenville, S. C. Micajah and Anna Caroline had twelve children...Mrs. McCurdy will appreciate any help or suggestions as she is trying to get her THOMAS genealogy ready for the HISTORY OF TRANSYLVANIA that is going to be published.

INDIAN RECORDS OF OKLAHOMA

--by C. George Younkin, a paper presented to the Fort Worth Genealogical Society, August 31, 1959

In order to understand some of the problems encountered by all students in their study about the American Indian, and particularly a genealogist, a brief review of their beginnings in this country might be in order. As you know, our American Indian is himself an immigrant to the Western Hemisphere. Most authorities now agree that these migrations began at the end of the last Glacial Period some 8 to 12 thousand years ago, with the Eskimo being the last of those to come over the Bering Strait "Land Bridge."

Between then and the First European Explorers, they wandered over the whole of the Western Hemisphere. Each group having its own legend as to its beginning; the Nahua and their story of the founding of Mexico City; the Pueblos with their ancestors emerging from a blue lake; the Algonquin's story of good and evil which almost sounds as if they had plagiarized the first Book of Genesis.

The Indian population of the Western Hemisphere has been estimated by most scholars at some 30 million when Europeans first discovered this land. Of these, only one million were north of the Rio Grande. Southward, of course, we know of the great civilizations of the Mayas, Aztecs, and the Incas whose civilizations in many respects out-rivaled the Egyptian and the Chinese.

Who were these original North Americans? How did they live? What was their civilization like? For comparison, let us seek a reference point which may be more familiar to us. Our pre-historians date man's progress of civilization by the implements he used and developed by his mode of life, etc.; the first rung of this ladder being the stone age. This age, since it spans a considerable period is sub-divided into the early stone age (Eolithic) and Neolithic--or new stone age. When Abraham left the land of Ur and began his trip to Palestine he saw the close of this latter cultural period. I use this date because here in America the Indian but a scant 500 years ago had a culture which ranged between the early stone age and the late stone age, while our white culture had its beginnings some 6,000 to 8,000 years ago.

It might be mentioned here too, that some of the tribes of the Northwest (Oregon, Washington and British Columbia) were not this far advanced--not having developed the use of pottery nor the domestication of fire for cooking. These primitive tribes are sometimes called "stoneboilers." It was not until the first European Explorers introduced knives and axes to the Indians in the 15th and 16th centuries that the Iron age of culture began.

Among the some 600 distinct societies of North America, the Europeans found all stages of culture--the Pueblos of the Southwest, the Mound Builders of the Southeast, the Woodland Indians of the Northeast, and the nomadic groups of the Plains.

As in all civilizations, the battle for survival brought these societies into continual conflict, either against one another or the elements of nature. Many of these early Indian societies thus became extinct before white man touched these shores, either by being swallowed up by a stronger society or wiped out by pestilence or war.

Much of this pre-historic existence is indistinct because until white men's contact, the Indians had no written language. We owe a great deal to the early Spanish and French missionaries, and other men of letters who

(Indian Records, continued:)

through their diaries, letters and writings we have a glimpse of how these early Americans lived. One might say that this then is the beginning of a written genealogy of the American Indian. That is to say, any record of Indian ancestry for the next three centuries, generally speaking, becomes dependent upon white man's contact with the Indians and the record he made, if any. Some of the first census of Indians were made by the Spanish in 1630. As late as 1880, our Government was merely securing the number of Cheyenne by a nose count. Among other records in the National Archives, the earliest census dates to the early 1800's.

Tracing ancestors did not become too important until rather recent times. For example, the "Old Settlers" Cherokees in the 1850's, in order to substantiate their claims to certain moneys owed by the Federal Government, had to establish their rights by proving they were the heirs of those who migrated to Oklahoma prior to 1830.

After the General Land Allotment Act of 1889 was passed, proving heirship became more of a problem to all Indian claimants who were to be allotted their own land in severalty. Another example, as each new treaty was signed, an attempt was made to make a census of that particular tribe in some instances. These lists, usually by the Indian name, may be found in the Published Editions of American State Papers, "The Public Lands." Some libraries are fortunate to have some of these published works. They have not been printed since the 1850's.

In other words, as each new treaty with the Indians was negotiated and ratified, (the first was in 1778 with the Delawares) the Indians as tribes and as individuals acquired rights that required the Federal Government to establish various types of records.

Originally, Congress itself was responsible for our dealings with the Indians. Then in 1789, this function was transferred to the Secretary of War. For the next 60 years the War Department guided our Indian Policy. Recent writers have thus accused the War Department of having a policy of extinction and so why keep records of individuals. A review of our treaties with the original Americans might possibly bear this out.

In 1849, the Indian affairs having attained Bureau status was transferred from the Military to Civilian Administration of the Department of Interior where it is today.

Even though under Civilian Administration, many of the Indian Agents continued to be drawn from the Army as a regular tour of duty. Thus the alleged policy of extermination continued to color our relationship with our red brother until the beginning of the 20th Century.

Throughout the past 150 years as the white populations expanded into Indian lands, as more treaties and agreements were ratified (some 370 treaties), as our responsibility of dealing with the Indian became more diverse, other Government agencies created records. Just prior to the establishment of our Regional Records Centers in 1950, in the National Archives in Washington, D. C., Indian records had been placed there for safe keeping by some 22 different Federal agencies.

Here are a few examples:

Record Groups 11 and 59--Documents concerning negotiations of Ratified Indian Treaties, 1778-1869.

In the Cherokee Treaty of 1828, we find such papers as Credentials

(Indian Records, continued:)

of Cherokee delegates attested by John Jolly, Principal Chief, statements from these delegates to the Peace Commission, original treaty with signatures.

Record Group 29--Census Records. Special Indian Census 1880-1881 (Indians on Reservations were not included in regular U. S. Census until 1940)

Record Group 46--U. S. Senate. Maps and atlases of lands ceded by the Indians, ratified treaties, etc.

Record Group 123--U. S. Court of Claims. The Hester Roll Eastern Cherokee--1884.

Siler Roll (Cherokee)--1857
Old Settler Roll, 1851, etc.

Record Group 107--Office of the Secretary of War.
Book period of letters received and sent 1800-1850.

Record Group 206--Records of Solicitor of Treasury Department such as copies of annuity payrolls, warrants, etc.

Of course, the main body of records were deposited in the National Archives by the Bureau of Indian Affairs, Record Group 75. These amounted to some 12,000 cubic feet by 1950. Since that date, these records have been for the most part, deposited in the ten General Services Administration Records Centers.

As rapidly as possible, the National Archives is publishing detailed listings of the Indian records within its own establishment. Two such inventories are Special List Number 6, "Documents concerning the negotiation of Ratified Indian Treaties, 1801-1869", and Special List Number 13, "List of Cartographic Records of Bureau of Indian Affairs."

A partial listing within this main body of Indian Records is as follows:

- 1) Field Records from various superintendencies, the earliest of which is the Cherokee Agency, 1801-1835.
- 2) Records of Government Trading Houses and Factories, 1795-1822.
- 3) Records of the Five Civilized Tribes, including immigrant enrollment lists, muster rolls of those removed and list of those voluntarily immigrating, 1820-1860.
- 4) Annual Reports of Agents and Superintendents. These in many instances (1837-1906 published) contain list of employees, ages, native state, salaries, etc.
- 5) Census Rolls--1835-1939 (only Cherokee antedate 1885)
- 6) Land Records--1860-1935, including allotment rolls, tract books, etc.
- 7) Copies of Payrolls, 1826-1933.

Of course these I have thus named represent only a small portion of the records in our National Archives.

Since 1950, for the most part, Federal Indian Records have been transferred to our regionally located Record Centers. For example: Those dealing with the Sioux of Dakota will be in the Kansas City Center; Navajos, in Los Angeles. As of the present time, no master list has been compiled of records in these Federal Records Centers.

(Indian Records, continued:)

The Federal Record Center in Fort Worth, Texas, serves the states of Arkansas, most of Louisiana, Oklahoma, and Texas. All of our Indian records here have come to us from Oklahoma and only a few of these pre-date the 1890's. These can be divided generally into two major groups, those from Western Oklahoma, the Plains Indians, and those of the Five Civilized Tribes, who migrated to the 40 eastern counties of Oklahoma. Few reservations were established in Western Oklahoma until after the Civil War, and when established, they operated from remote locations where communication was poor. What records that came into being at these agencies were not well made nor well kept. In the 1880's a young lieutenant reporting for duty (a vacancy for three years) at Kiowa Agency, complained in his annual report that what records he could find were but remanent stacked away in an outlying out-house.

Of course, the first Indians to settle in Eastern Oklahoma by treaty were the Indians of the Five Civilized Tribes, called civilized because they came from portions of the country where they had been in contact with the whites for over a hundred years. The Cherokee published in North Carolina in 1828, "The Cherokee Advocate" and Sequoyah had invented the Cherokee alphabet some years earlier. The Choctaw owned cotton plantations and negro slaves and had contracts for fuel wood prior to their removal.

By treaty these tribes, the Cherokee, Choctaw, Chickasaw, Creeks, and Seminoles were deeded land outright to be held in the name of the tribe. They were permitted to establish democratic form of government based upon our own Constitution. By 1840, most of these tribes had their own constitution, their own legislature, their own courts, their own police and local governments.

Unfortunately, these tribal records created prior to the Civil War have all but disappeared except for a few Cherokee rolls.

Here then is a sampling of records from Oklahoma in our Center. I have selected those which may be of interest to you here tonight.

 Indian (Ind.) Case Files, 1900-1940.
 Lawful heirs of deceased allottees, 1894-1914.

8) Area Office--Muskogee, Oklahoma
 The Union Agency was established here after the Civil War, however the Five Tribes continued to ignore this Agency which until 1893 consisted of one agent and two clerks. In 1899, the Union Agency burned to the ground and many records were destroyed. A roomful, says the agent.

Although some 8,000 cubic feet (1,500 cabinets) of records were transferred from Muskogee to our Records Center, this office retained the original enrollment cards for all Five Tribes. This enrollment was taken by the Dawes Commission beginning in 1896, and continued until closed in 1906. These cards are the basis for the Dawes Rolls and from which the final land allotments were made.

Among the records received in the Records Center are:

Cherokee Allotment Rolls, 1903-1908.
 Choctaw and Chickasaw Allotment Rolls, 1903-1911.
 Seminole Allotment Rolls, 1901-1906.
 Creeks Allotment Rolls, 1899-1918.

Annuity Payrolls
 Choctaw, 1911-1926
 Mississippi Choctaws, 1911-1920
 Chickasaws, 1911-1922.

Census Rolls
 Cherokee, 1867-1896.
 Choctaws, 1896.
 Seminole, 1897.

Proofs of Heirship, 1913-1933.

Applications for Citizenship, 1896-1903.

This is but a brief list. As time permits, a more detailed inventory will be made. Already we have found hidden away under a different label, some of the early census records mentioned previously.

Not included is some library material such as this volume I have on display of American State Papers, "Public Lands." Included therein is a Census of Choctaws residing in Mississippi prior to the Treaty of the Dancing Rabbit in 1830. Other published books also include:

Annual Reports to Indian Commission, 1889-1912.
 Annual Reports of the Five Civilized Tribes, 1900-1921.

Let me summarize then as to what records might be useful in your

(Indian records, continued:)

genealogical research as far as records in our Center.

For the Plains Indians of Western Oklahoma--If your research leads you back prior to 1885, it is not in our Center. This includes the Comanches, Kiowas, etc. In all probability, a local historical society or the State of Oklahoma Historical Society would be a better source.

For the Five Civilized Tribes and with the exception of the Cherokee, the Dawes Rolls of 1896, are about as far back as our Records go. As mentioned previously, with luck and sufficient information we can trace Cherokees in some instances back to 1819.

The most important difficulty we have encountered in searching for Indian ancestry, is the lack of a written history until white man's contact. Second in importance is that the records themselves have been scattered among private collectors, historical societies, museums, and libraries. At least, these, and by far the smallest proportion, have been placed there for safe keeping. But the larger quantity have either been destroyed or lost or mislaid. In this instance I am thinking of one group of records we found in an old shed that had been abandoned for almost thirty years. Within these were land allotment records, records of births, deaths, and marriages.

I am also thinking of an Agency Superintendent who in 1908, when the Five Civilized Tribes Government was abolished by law, asked Congress for a small amount of money to preserve and adequately care for these valuable records. Every year until 1921, he brought this neglect to Congress's attention. It is apparent now because of the scarcity of these records that nothing was done.

The third difficulty comes from the records themselves. Unfortunately, when the tribal governments patterned themselves after our form of government they also inherited the bad side of politics along with the good. Early Census takers were appointed by the Principal Chief or Governor. While the majority did a conscientious job, others failed to record sufficient information; they left off dates, guessed at ages, added given names and wrote so illegibly that their handwritten reports cannot be read.

One of the major problems of the Dawes Commission in 1896 was to determine which Indian made rolls were sufficiently accurate to make the Dawes Rolls legal. For example, Indians would enroll in different enrollment districts. They would use their Indian name in one district and the anglicized version in another. In fact, this particular problem goes back to some of the earlier rolls. As the Cherokee began to use English names, some were direct translations but others like Rogers, Brown, etc., were usually taken from some white benefactor. English names once chosen were not used consistently. Today they might be Jones, tomorrow they might have used Smith.

The Indians have no gender in their language, consequently many English girls names were attached to males and vice versa.

We have been able to help trace Indian genealogy, as in the case of a lady from the West Coast who wrote to us asking that we aid her in finding the missing links in her family history between 1817 and 1900, which we were able to do. We never like to leave a quest as ended, but many times continue on, hoping in our searching to find another missing piece to a particular historical or genealogical puzzle.

EARLE, FISLER, WHILDEN, MILLER, MCKAY, HOUSTON, YOUNGBLOOD, BROCK:

Mrs. A. J. Bovinich, 3714 Davila Drive, Dallas 20, Texas, a new member of the Fort Worth Genealogical Society, who sent in her dues with those of a friend, Mrs. Rogers Ray, is interested in data on FANNIE EARLE, b. 1809, Augusta, Ga., married a MR. FISLER, and had one child, MARTHA MATILDA, b. 1838, d. 1898, New Orleans. Any data on FISLER will be appreciated. Mrs. Bovinich also wants information on ELIAS & ELIZABETH (MILLER) WHILDEN, both of Charleston, S. C., married 1855-60; and on JOHN & SUSAN (HOUSTON) MCKAY, married in Lockhart, Texas, 1855-60; and on JOHN YOUNGBLOOD who m. MARY BROCK, 1855-60, in Heelstring, Texas, which is now Bristol, Ellis Co. She m. 2ndly to DR. HINSON, and lived in or near Thorndale, Texas.

TERRELL (TYRRELL), WATERS:

Mrs. S. L. Rogers, 444 N. 9th West, Provo, Utah, wants a list of the children and grand children of WILLIAM TERRELL of Hanover County, Virginia, who married SUSANNAH WATERS. He died in 1727. He was son of WILLIAM TYRRELL, SR., who settled in New Kent Co., Va., in 1667 and became a large landholder. She has many records on TERRELL, HUDSON, and WARE lines and will be happy to exchange.

HARE, VAUGHN, LEVER, JENNINGS, CURBO, WHITE:

Glen R. Dumas, Route 1, Hillsboro, Texas, would like to correspond with anyone having information re MICHEAL HARE (1817-1898) and his wife, SALLIEH VAUGHN (1820-1902), who lived in Edgefield and Saluda County, South Carolina. Also, would like data re the LEVER and JENNINGS families of the same vicinity. Also, any information about the CURBO family of Giles County, Tennessee, specifically SEALIE CURBO who married JAMES WHITE before 1860.

WILLARD, SEALS (SEAIE), YATES, AND ALLIED LINES:

Mrs. Richard R. Smith, III, Box 210, Georgetown, Texas, wants to correspond with descendants or anyone who has data on the WILLARD family of Cannon County, Tennessee. She is interested in learning who was the first wife of WILLIAM WILLARD, b. 6 April 1811, Tenn. By this first wife he had (she thinks) eight children, one of whom was her great grandfather, JAMES AARON WILLARD, who came to Texas about 1870. Another of these 8 children who remained in Tennessee was MATTHEW W. WILLARD, b. about 1845. The 1860 Census for Cannon Co., Tenn., shows a JOHN WILLARD, 82 years old, born in Virginia, living in the WILLIAM WILLARD household. Was this William's father? Would like to know more about this JOHN WILLARD, who would have been born about 1778.

Mrs. Smith is also seeking data on WILLIAM RILEY SEALS (SEAIE), who was living in Nacogdoches County, Texas in 1855, and in August of that year married FRANCES JANE YATES, daughter of STEPHEN and NANCY TOMLINSON YATES. They lived (she thinks) in the Melrose Community, and he presumably died there about 1882. To her knowledge he had only one full brother, TOM (THOMAS) and one full sister, POLLY. Upon his father's death, his mother married a MR. PARROTT (PARRETT?) and they had at least the following children: WILLIAM PARROTT, LUCINDA PARROTT m. a YATES, and NANCY PARROTT m. a MACKEY.

REPORT OF THE SEPTEMBER 28, 1959, FORT WORTH GENEALOGICAL SOCIETY MEETING:

The thirtieth meeting of the Fort Worth Genealogical Society was held the last Monday evening in September, September 28, 1959, in the auditorium of the Fort Worth Public Library. Mr. David Whatley, a director of the society, spoke on "Genealogical Research." Mr. Whatley covered the search for ancestors from the family Bible to the county court houses and told in great detail of what to look for and what to do with the information when you find it. He said that it is much easier to trace a whole family unit down through the years than it is to attempt to follow the migrations of a single ancestor. Like many other researchers who go out into the field, he bemoaned the lack of care given to original records which are in poor condition and crumble to the touch. Such records will be lost forever if we do not do something to save them and soon!

It was announced that the luncheon meeting on November 20, 1959, honoring Mrs. C. L. Farquharson, is open to anyone desiring to make a reservation with Mrs. G. E. Burritt, 3817 W. Biddison, Fort Worth, Texas; telephone WALnut 7-0720. Mrs. Farquharson will speak on "THE MAYFLOWER DESCENDANTS" and the society is highly honored to have her as our guest speaker. The luncheon will be at 12 noon in Parlor "R", Hotel Texas, and reservations for the luncheon are \$2.30 each.

The meeting adjourned after the President reminded the group that the next regular meeting of the society will be held the last Monday evening in October, October 26, 1959, at 7:30 P. M., in the auditorium of the Fort Worth Public Library. Mrs. Henry King, a former National Vice Chairman of the Daughters of Colonial Wars, will speak on "THE HISTORY AND GENEALOGY OF THE DAUGHTERS OF COLONIAL WARS."

EXCERPTS FROM A TALK ON "GENEALOGICAL RESEARCH" BY DAVID WHATLEY,
GIVEN AT THE SEPTEMBER 28, 1959, FORT WORTH GENEALOGICAL SOCIETY MEETING:

You never know what you are going to find in your genealogical research. You may discover that you are an heir to a fortune. You may run into all sorts of good and bad stories about your family. When you begin your search make the habit of recording your source of information, which you will need to prove your lineage. Start with your own personal history and go backward. Collect all the documents you can to prove births, marriages, and deaths. Get dates and places these events occurred. Contact relatives for old letters, Bible records, newspaper clippings, pictures, and interviews.

Visit your local library and study some of the books that tell you how to do genealogical research. Better still, take the publisher's name and address and buy a copy of such a book for yourself. Learn to use the card index files in your library. If you just browse around, you will waste time and overlook many books that can help you. Check to see if a family genealogy has been printed on your family. If one is not listed in the library card index, check some of their book catalogs to see if you can order one. Look for local and state histories on the area where your people lived. Your library may have many books of land records, marriage records, cemetery records, and the like which may have data you need. Check all the indexes of surnames and the lineage books of patriotic societies. Check census records on microfilm, if available.

Visit the county court house in the area your people lived in. The Deed Record Books may reveal clues to your family tree. Look at old surveyor's maps, Mortgage Books, Land Grants and Tax Lists. Some of the land records you want may not be in the county court house but may be secured from the State Land Office or General Land Office in Washington, D. C. Check the Property Tax (real estate) lists, Personal Property Tax Lists, and Poll Tax Lists (in states where Poll Tax is required to vote). In the Marriage Records Department, look at the Intent to Marry List, Marriage Bonds, and Marriage Licenses. Other records to trace are Divorce Records, Probate Records, Police Files, Civil Court Records, and War Records (many court houses have lists of the veterans from that county, including Civil War Soldiers and World War I).

Never underestimate the value of a trip to your State Archives for early records such as Land Records, early Marriage Records, Census Records, any Court Record pertaining to the State, old maps (Original maps of the state, first settlements, early trails and roads, Churches and missions, etc.), newspapers and church records, territorial records, military records, private papers, and Vital Statistics.

Your National Archives in Washington, D. C., has a wealth of genealogical material in Military Records, Pension Records, Census Records, Vital Statistics, and Ships and Passenger Lists.

Never forget the importance of the information you can obtain at home and by writing to relatives near and far. Always send a stamped self-addressed envelope along with your query and don't try to get too much information at one time. If you learn about your family history you will be learning about the history of your town, your states and your country.

"It is one proof of a good education, and of a true refinement of feeling, to respect antiquity."--Mrs. Sigourney.

MARRIAGE RECORDS:

Miss Marion Day Mullins, 2306 Park Place, Fort Worth 10, Texas, has allowed the Fort Worth Genealogical Society to microfilm the many records of early Texas marriage records that she has copied. These TEXAS MARRIAGE RECORDS are being processed and as soon as possible their price and complete information on the sale of these records will be announced by the board of directors of THE FORT WORTH GENEALOGICAL SOCIETY. Here is another contribution of Miss Mullins to Texas historians and genealogists. At her own expense, Miss Mullins has travelled from county court house to county court house, spending hours and days, many times under adverse conditions, copying these early Texas marriage records. Many of these records date back to the days of the Republic of Texas. These records have been carefully indexed. In the July, 1959, bulletin of our society, page 2, there is a list of some of the records we have already put on film.

The town of TERRELL, TEXAS, was named for the man who owned the land where Terrell is located--ROBERT ADAMS TERRELL. He is descended from James (5), Edward (4), David (3), David (2), William (1) who married Susanna Waters."

A. R.; and has papers pending for Magna Carta.

Your editor heard Mrs. Farquharson speak a year ago at Ridglea Country Club at a U. S. Daughters of 1812 meeting on the subject of "Was the War of 1812 Necessary?" We were spellbound by her great knowledge and exciting talk and have been trying ever since to get her to come to Fort Worth to talk to our society. She is, without a doubt, the best public speaker we have ever heard. We were fortunate enough to hear her talk once since then, and again we were amazed at this great lady's brilliant genius for making the past come to life!

Let's make a date for Friday noon, November 20th, and welcome this honored guest to Cowtown, U. S. A.

REPORT OF THE OCTOBER 26, 1959, FORT WORTH GENEALOGICAL SOCIETY MEETING:

The thirty-first meeting of the Fort Worth Genealogical Society was held the last Monday night in October, October 26, 1959, in the auditorium of the Fort Worth Public Library. Mrs. Robert Henry King, 1200 Virginia Place, Fort Worth 7, Texas, spoke on "The History and Genealogy of the Daughters of Colonial Wars." Mrs. King told of the aims of the D. C. W. and how the society was founded. She described the wonderful work done to help the mountain folk of Kentucky. Re genealogical aspects, she said that to prove lineage for D. C. W., much the same research is necessary as to prove lineage for membership in the National Society of the Daughters of the American Revolution, except that your ancestor's service must have taken place prior to 1775. This is difficult as there are not as many records for the early colonial period, as the Revolutionary era which the D. A. R. has done much to collect and record the history of for genealogical researchers.

It was announced that invitations to presidents and regents of the various genealogical, historical, and patriotic societies have been sent and that reservations for our luncheon November 20, 1959, Hotel Texas, honoring Mrs. C. L. Farquharson, Governor of the Texas Society of The Mayflower Descendants, are coming in from as far away as San Antonio, Texas. His Honor, Tom McCann, Mayor of Fort Worth, has accepted our invitation to the luncheon and plans to be there to present Mrs. Farquharson an honorary citizenship in the City of Fort Worth.

Anyone interested may attend this November 20th luncheon by calling or writing our reservation chairman, Mrs. G. E. Burritt, 3817 W. Biddison, Fort Worth 9, Texas; telephone, WALnut 7-0720. Reservations are \$2.30 each. You may mail in your check or money order, or pay at the door. The time is 12 noon, Friday, November 20, 1959!

THE SHAW CHILDREN OF AMERICA:

Miss Shelia Ann Shaw, 2525 Oak Street, Jacksonville 4, Florida, is editor of a new genealogical quarterly, THE SHAW CHILDREN OF AMERICA, embracing all who claim Shaw lineage in the United States, whatever their name may be. Subscriptions are two dollars a year. Volume I, No. 1, gives data on the surname, SHAW, and some genealogy of one John SHAW, of England who came to Dartmouth, Mass., before 1652. The notes and queries and extracts on various Shaw families should prove of great value to any genealogist tracing a Shaw line.

GENEALOGICAL SUPPLIES AND AIDS:

For the best genealogical supplies for the money, write to THE EVERTON PUBLISHERS, 526 North Main Street, Logan, Utah, for their Catalogue No. 10, Oct. 1959, which is free. We receive many request for information on how to purchase family history charts and supplies and this is in answer to all these queries. The Everton Publishers put out that wonderful quarterly, THE GENEALOGICAL HELPER, that has helped many an amateur genealogist on the road to successful ancestor hunting. They have a new ten generation pedigree chart, No. P-12, that has a place for 1022 ancestors that is suitable for framing and costs only about a fifth of what most such charts are sold for in the East. Their Genealogy Letter--Pedigree Chart, No. P-5, which has a short pedigree form and printed letter on one side asking for data and a regulation pedigree chart on the other side for requested information, is the most useful item in their catalogue to those genealogists who are trying to trace their family history by mail.

FLINT GENEALOGICAL SOCIETY, FLINT, MICHIGAN:

The Flint Genealogical Society of Flint, Michigan, held its annual picnic in July last summer where the members got together to plan the work of their various genealogical projects. Among the projects discussed, according to their October, 1959, quarterly, was indexing the 1944 issues of the Hartford Times. Such a project is fine, but we think they should check first to see if such an index is not already available at little cost in print. Our society has made the mistake of attempting such work that has already been done by others and since there is such a vast amount of indexing needed to help genealogical researchers we hope that all genealogical and historical societies will pool their time and energy and not duplicate work.

The President of the Flint Genealogical Society is Mrs. James Lawliss, 322 E. Williams, Ann Arbor, Michigan. They have an attractive quarterly and are doing an excellent job in reporting on the genealogical activities of their members and of publishing Michigan records.

LETTERS TO THE EDITOR:

Tracy D. Cary, President, PAMPA GENEALOGICAL & HISTORICAL SOCIETY, 430 North Sumner Street, Pampa, Texas, writes:

"I want to thank Mrs. Frank Estill for her answer to a Terrell family query by Mrs. S. L. Rogers of Provo, Utah, in the October bulletin. I only wish I had known that we had a mutual line when I was in Ft. Worth, so we could have compared notes."

DAVID TERRELL (No. 4 in Mrs. Estill's listing) who married AGATHA CHILES was my sixth-great grandfather (maternal side). Perhaps this additional information will be helpful.

My material is taken from KEY AND ALLIED FAMILIES, by Mrs. Julian Lane; CAMPBELL CHRONICLES, by R. H. Early; HISTORY OF CAROLINE COUNTY, VIRGINIA; and EARLY SETTLERS OF ALABAMA, by Col. James Saunders.

Joseph Henry Tyrrell of England, gives as the founder of this family, Ralph de Tirel, son of Walter I, County of Vexin and Amieus, and a direct descendant through both his grandparents from Pepin le Gros, Duke of Braboult, grandfather of Charlemagne, and consequently from Antenor, King of Cimmerians, who lived 443 B. C.

The Tyrrells of Thornton Hall, four miles northwest of Buckingham, were descended through Sir James Tyrrell, who lived about the middle of the 14th Century and who married Margaret, daughter and heiress of Sir William Heron, of Heron Hall, Essex. This Sir James was a direct descendant of Sir Walter, whose grandfather, Sir Walter, was one of the companions of the Conqueror in 1066.

George of Thornton, Lord of Manors of Brunyn, died May 16, 1571. His second son, *William, settled at Reading, near Thornton. He married Jane Baldwin, June 29, 1617. ISSUE: I. John; II. Robert; III. Richmond; IV. William; and V. Mary. (III. Richmond and IV. William settled in Virginia.) IV. William Terrell, Sr., b. 1635, d. 1727, came to Virginia in 1665 (P. 11, CAMPBELL CHRON.)

1. William Terrell, Jr., married Susannah Walters (Waters in Mrs. Estill's list) and had ISSUE:

a. William Terrell	f. James Terrell
b. John Terrell	g. Joel Terrell
c. Timothy Terrell	h. Anna Terrell (Lewis)
d. David Terrell (my ancestor)	i. Elizabeth Terrell (m. Thomas Wingfield)
e. Henry Terrell	
d. DAVID TERRELL, d. 1759 (I. William; IV. William; *William, George of Thornton) married AGATHA CHILES, d. 1764. Of their children--	
Millicent (or Mildred) Terrell, b. June 7, 1741, married Christopher Clark, b. April 20, 1737. (She is No. 4 (6) in Mrs. Estill's list.) They moved from Albemarle County, Virginia, to Elbert County, Georgia.	

(Letters to the Editor, continued from page 3:)

The children of Millicent (or Mildred) Terrell and Christopher Clark were as follows:

- 1) Micajah Clark, b. Feb. 24, 1758, m. Ella Gatewood.
- 2) Christopher Clark, Jr., b. Jan. 6, 1760, m. Rebecca Davis.
- 3) David Clark, b. April 8, 1762, m. (his cousin) Mary Clark.
- 4) Mourning Clark, b. August 12, 1764, m. William Bibb Key (they were my 4th great-grandparents)
- 5) Judith Clark, b. October 22, 1766, married Peter Wyche.
- 6) Rachel Clark, b. October 8, 1768, Married 1stly, John Bowen; 2ndly, John Dailey.
- 7) Agatha Clark, b. August 28, 1770, married John Wyche.
- 8) Mary Clark, b. October 1, 1772, married Thomas Oliver.
- 9) Samuel Clark, b. October 5, 1774, unmarried.
- 10) Joshua Clark, b. July 7, 1777, unmarried.
- 11) Mildred Clark, b. March 24, 1779, married Shelton White.
- 12) Terrell Clark, b. September 3, 1781, married ?
- 13) Susannah Clark, b. March 5, 1783, married Rev. McCarthy Oliver.
- 14) Lucy Clark, b. April 19, 1786, married James Oliver.

The three Olivers who married Clark girls were brothers, and the sons of Dionysius Oliver of Elbert County, Ga.

d. DAVID TERRELL was road supervisor in Caroline County, Va., in 1733, and the last wolf of record in that county was killed by him in 1747. His father, William Terrell, was of English birth, a persecuted Quaker, who went first to Ireland and after a temporary residence there, emigrated to Virginia.

The TERRELLS and CLARKS were ardent Quakers and many Quaker meeting-houses were built on land donated by them. CHRISTOPHER CLARK, SR., was however, a Captain in the Revolutionary War, and Christopher Clark, Jr., also served in the Army.

My 4th great-grandparents (MOURNING CLARK and WILLIAM BIBB KEY, who served in troops commanded by Lafayette) were converted to Methodism when Bishop Francis Asbury preached at the home of Tandy Key, William's brother, near Charlottesville, in Albemarle Co., Va. TANDY KEY was a private secretary of Thomas Jefferson's at one time. WILLIAM BIBB KEY moved his family to Elbert Co., Ga., about 1790. Monuments to William Bibb Key and Mourning Clark Key were erected at Elberton, Ga., by the N. S. D. A. R. chapter at Elberton.

WHAT'S MY LINEAGE?

MURRAY:

See Dept

Mrs. Ralph Seward, Box 528, Nevada, who read of our society in THE SOUTHERN GENEALOGIST'S EXCHANGE and the WASHINGTON COUNTY ARKANSAS HISTORICAL SOCIETY BULLETIN, is a new member of our group. She was born (MARY FRANCES MURRAY) in 1905 at Snyder, Texas, although their home was at Post, Texas, where her father, HENRY BRUCE MURRAY, established and edited the early day newspaper, THE POST CITY POST. However, due to an illness in the family, her parents moved to Colorado when Mrs. Seward was a child. Her grandfather was JUDGE JOHN WATTS MURRAY, who, around 1884 or 1885, served as County Judge in Taylor County after which he and his wife, REBECCA FRANCES SON MURRAY, moved to Crosby County, where, in addition to his law practice, "my grandfather established the early day newspaper, THE CROSBY COUNTY NEWS." Anyone having genealogical data re these lines, let Mrs. Seward hear from you.

STRICKLAND:

Mrs. Buford C. Curtis, 3812 Lafayette, Fort Worth 7, Texas, would like to contact descendants of DAVID and SAMUEL STRICKLAND, who are listed with their families in Miss Marion Day Mullins's 1836 Census of Texas. They migrated thru Missouri. Mrs. Curtis has this line proved back to 1754 with documentary proof.

JONES, BOX, EWING, AND ALLIED LINES:

Mrs. Gerald B. McLane, 112 Leach St., Hot Springs, Arkansas, would appreciate information on the following JONES family--ANDREW JONES and his wife, REBECCA BOX, had one son, ROBERT JONES, b. ca 1808 in South Carolina, who married April 5, 1827 in Hardeman Co., Tenn., MELINDA EWING, dau. of JAMES EWING and LADUFSA DILLARD. They removed from Tenn. to Miss. about 1837, and came to Clark Co., Ark., in 1842/3. Robert and Melinda had nine children, one of whom was WILLIS C. JONES, b. 3 Sept. 1830 in Bolivar, Hardeman Co., Tenn.; died in 1906, Clark Co., Ark. He married in 1850 in Alabama, MARY ADELINE (POLLY) WRIGHT. WILLIS JONES was a pioneer physician and served in Harrison's 4th Arkansas Inf. during the War Between the States. The following children were all born in Ark., to DR. WILLIS C. JONES AND MARY A. WRIGHT JONES--Nancy Elizabeth (1854-1920); Joseph H. (1855-1877); Sarah J. (1858-?); Mary Melinda, b. 1860; Eliza Handson (1861-1892); Julia A., b. 1864; Margaret A., b. 1866; and Richard, b. 1870.

WRIGHT AND ALLIED LINES:

Mrs. Gerald B. McLane, 112 Leach St., Hot Springs, Arkansas, would also like data on her great-grandfather and his father, both named ALEXANDER WRIGHT. Alex, Sr., was born in 1822, S. C., according to the 1870 Census of Clark Co., Ark. He m. about 1843, LAVINIA ANN SELLERS, b. 1822, in Ga. Their first child, Alexander, Jr., was b. in Ala., 16 Oct. 1844. They moved to Ark. in 1847, where their second child, Richard, was born, but apparently, if the Census is correct, returned to Alabama, where, five other children (Jamison, Robert, Ella J., John, and Martha) were born and came again to Ark., sometime between 1866 and 1870. They resided in Clark Co., Ark., and Alex Wright, Jr., married Nancy Elizabeth Jones, dau. of Dr. Willis Jones and Mary Ann Wright, in that locality in 1870. Both Alex, Jr. and wife died in 1820.

(What's My Lineage? continued:)

PARKER, MORGAN, HODGES:

Mrs. A. C. Dodson, 2249 Fort Worth Hiway, Weatherford, Texas, writes that she has been told over and over by several living relatives that one of her ancestors was a small child at Fort Parker, Texas. They thought the ancestor's name was SARAH MORGAN by marriage (SARAH PARKER prior to marriage). This woman married a man by the name of MORGAN; however Mrs. Dodson has been unable to determine his first name or initials. SARAH MORGAN and Mr. Morgan had a child by the name of SARAH MORGAN, who married JOHN VESLEY HODGES. They had a son by the name of JEFFERSON DAVIS HODGES, who was born in Bosque County, 25 Sept. 1878 (and who is still living). Can anyone help Mrs. Dodson trace this family?

GARNER, PERKINS:

Mrs. W. B. Henderson, 9732 Skylark, Garden Grove, California, is seeking data on her GARNER line. Her grandfather was JOHN ALEXANDER GARNER, who married ELIZABETH PERKINS in Henderson, Kentucky, April 12, 1854. He had paid taxes in Fredericksburg, Virginia, three years before that, but she cannot determine where he was born.

COX, HOWELL:

Mrs. Harry A. Davis, 608 Sutton Drive, Killeen, Texas, is the daughter of COLEMAN FOSTER COX (1855-1937); son of ANDREW YOUNG COX (1829-1905); son of COLEMAN COX (b. ?-d. ?); son of JOHN COX (d. 1832, Ky.). JOHN COX'S wife was SARAH NUNNELLEY. Mrs. Davis is interested in hearing from others working on COX genealogy.

SMITH, ROUNTREE, JONES, HAMMETT, SCHUMACHER:

Mrs. Ludie B. Camp, 524 W. Hopkins Street, San Marcos, Texas, desires data on the ancestry of WILLIAM SMITH, b. 1759, in Va., m. MARY in 1783. Served as a Sgt. in the Rev. BARNES, YARBER, VINSON:

Mrs. E. A. Leonard, (Alice Vinson Leonard), 1005 Meadow Ave., Laredo, Texas, wants to exchange data on the BARNES family. She writes, "My branch of the BARNES family started with JOHN BARNES, who came from North Carolina to Georgia in 1805. WILLIAM BARNES, his brother, came with him and settled where Barnesville, Ga., now stands. Two other brothers, BEN and GIDEON, moved to Tenn. or Ky. Both WILLIAM and JOHN BARNES were in the War of 1812. William was in the last battle that was fought on Jan. 10, 1815; and John was stationed at Fort Peter, Fla. My gr-gr-gr-grandfather, JOHN BARNES, married SARAH YARBER. They had 7 children--LITTLETON, JOSHUA, WILLIAM, MALINDA, ALETHA, BEN, and MOSES. My gr-gr-grandfather, BEN BARNES (1803-1885) married PATIENCE SPEARS (1804-1841). They had 10 children--JOHN, SARAH, MARTHA, PATIENCE, BEN JR., ANDREW, ELIZA, REMELSON, and others that I can't name. STOCKTON, LATTIMORE, AND ALLIED LINES:

Mrs. N. B. Hedges, 101 Falkirk St., Port Wentworth, Georgia, will appreciate any information on STOCKTON. She writes, "The wife of FRANCIS LATTIMORE was Rachel Stockton so I'm told. I have no proof. One of his daughter's name was Rachel. Francis Lattimore's will of May, 1817, is in Glasgow, Kentucky. His wife was not living at that time. DAVIS STOCKTON's wife, MARTHA CHAPMAN, who after his death married SAMUEL ARNOLD, was in Williamsburg before the Rev. War. They went to Rutherford Co., N. C. His son, Thomas, was a Rev. soldier. There was a RICHARD STOCKTON, who signed the Declaration of Independence. Since Davis had a son, Richard I, I wonder if it wasn't he. THOMAS STOCKTON went to Glasgow, Kentucky. HISTORY OF ALBEMARLE COUNTY, VIRGINIA, page 319, gives a short sketch. DAVIS STOCKTON went to Albemarle Co. with MICHAEL WOODS. The Woods evidently went on into Ky. with the Stocktons.

There was a Francis Lattimore in Albany Co., N. Y., that married GERTRUDE VAN NESS. He went to Barren Co., Ky. Francis Lattimore of Rutherford, N. C., who married Rachel Stockton went to Barren Co., Ky. I find records of only one Francis Lattimore there and I know he was mine from his will. His will names 5 daughters--one of them, Margaret--married JAMES WRIGHT RENICK."

LINES FROM SIR THOMAS INNES OF LEARNNEY, LORD LYON KING OF ARMS, SCOTLAND:

Mr. Henry Geddie, one of our society members, wishes to share the following part of a letter to him of August 25, 1959, from Sir Thomas Innes of Learney, Lord Lyon King of Arms, Scotland:

There is nothing criticizable in having arms which depend upon a patent, but the folk who "usurp and assume unto themselves" arms which have not been duly constituted by one of the Kings of Arms, come promptly into disgrace, and they are regarded as having committed a heinous social offense, and in, or as regards Scotland, a statutory offense for which penalties are still eligible.

Even those who do prove descent from an armigerous ancestor have to get their arms differenced unless they prove themselves to be the senior representative of such ancestor. This is necessary if arms are to be of real and practical use, which of course is what they are for. If they don't fulfill that purpose (as they do under the Scottish scheme of statutory differencing) they would be of no practical use, and their use in that case would be a mere meaningless ostentation. Use of a properly differenced coat of arms even flowing (as most do) from a Patent, is quite scientific and sensible. Even an ancient ancestor must some time or other have started the arms by a grant from some early King of Arms.

(EDITOR'S NOTE: Some time ago Mr. Jack E. Hodge called ye olde editor to ask that we correct calling him the society's "herald," and said he is a heraldic artist only. Many Americans study and collect such art work, but certainly no one should bear arms without a patent.)

A LETTER TO THE EDITOR:

Donald E. V. Henderson, 3819 23rd Street, North, Arlington 7, Virginia, writes as follows:

"I can, perhaps, add a little to the information on the Terrells in the November BULLETIN. Anna (Terrell) Lewis is listed as the daughter of William Terrell, Jr., but the only Ann Terrell I know of who married a Lewis was Ann Overton Terrell, daughter of Richmond Terrell, of Louisa County, Virginia, who, in 1771, married Zachary Lewis III (1731-1803). Zachary Lewis III was a grandson of the Zachary Lewis who emigrated from Wales to Virginia in 1692. The grandson was a younger brother of the John Lewis, known as "the Honest Lawyer (who was Patrick Henry's predecessor in "The Parson's Cause") and was an older brother of my third-great grandfather, Dr. Waller Lewis. Zachary Lewis III and Ann Terrell Lewis were the parents of John Lewis of Llangollen, Spotsylvania County, Virginia, who is credited with starting the first co-educational school in America (see Matthew Page Andrews' VIRGINIA, THE OLD DOMINION).

There were originally three Lewis families in Virginia (not related, but they intermarried early and their descendants are related now). Dr. Waller Lewis was one of those who intermarried, his wife having been Sarah Lewis, daughter of Col. Robert Lewis of Belvoir and Jane Meriwether, his wife. The third Lewis family (other than those of Spotsylvania County and the Lewises of Warner Hall) were descendants of John Lewis ('who killed the Irish landlord and furnished five sons to the Revolution,' as his tombstone points out), who was the founder of Staunton, Virginia."

BIRMINGHAM GENEALOGICAL SOCIETY:

Mrs. Henry M. Martin, 4320 6 Avenue South, Birmingham, Alabama, edits the publication of the Birmingham Genealogical Society. In the October 1, 1959, issue, she asks for data on the Otts family reunion held in Texas. Mrs. H. B. Whiteside is president of this society.

MEET A NEW MEMBER OF THE FORT WORTH GENEALOGICAL SOCIETY!

Ruth Thayer Ravenscroft, 1926 Cheyenne Boulevard, Colorado Springs, Colorado, has traced all her father's lines back to the immigrant ancestor, and many of her mother's lines. She is at present compiling from hand written notes the family history of a woman who wants it prepared to submit to a publisher. Mrs. Ravenscroft has designed and copyrighted a family tree and a pedigree chart. In addition to her genealogical work she is a heraldic artist. The names of THAYER, SELBY, BLACKMAN, AVERY, STANTON, DENISON, are among those on her pedigree chart. She has helped many people solve their genealogical and heraldic problems. One of her pet peeves is receiving letters of inquiry that do not enclose a self-addressed stamped envelope.

* * *

MEET A FOUNDING MEMBER OF THE FORT WORTH GENEALOGICAL SOCIETY!

Mrs. C. C. Peters, 1619 Pennsylvania, Fort Worth 4, Texas, is better known among her fellow Texans as "MRS. TEXAS." This great lady has done more to instill a love of Texas and the history and heritage of the days of the Republic of Texas than any DAUGHTER OF THE REPUBLIC OF TEXAS that we know. Mrs. Peters stays in the background and never pushes herself for grand-sounding titles or honors, but let anyone threaten our sacred historical relics or our state rights that we retained when we were annexed to the United States, and she immediately assumes the position of a General Sam Houston and directs the fight to protect Texas and Texans.

If you are ever fortunate enough to be entertained in Mrs. C. C. Peters' gracious home, you unclasp a beautiful wrought-iron gate to enter. You get the feeling that something wonderful is going to happen to you and when you receive a warm welcome at the door and walk into her presence, you know that you are before a great lady.

Every room in her Texas home bespeaks her personality. The walls are lined with handsome books that tell the story of our Texas ancestors. The huge glass windows are filled with every type of greenery and over a cup of real Texas coffee, served in the finest of china from the piled-high tea cart, you admire the beauty and honesty and strength of character of this Texas daughter.

No wonder Texas is so great that the whole world bows to her. With people like Mrs. C. C. Peters to love her and fight for her, she couldn't be anything else!

WHAT'S MY LINEAGE?

OWENS, INNES:

Dorris D. Hendrickson, 113½ West Fifth, Okmulgee, Oklahoma, read in FLASHBACK, the publication of the Washington County (Arkansas) Historical Society, of our BULLETIN. She is interested in obtaining information on the genealogy of the OWENS and the INNES family names. Her maternal ancestors came from Texas, although most settled in Ark.

DICKEY, RODGERS, STROHM, LOGUE, ELLIOT, ARMSTRONG, FULTON, ETC.:

Mrs. W. O. Clark, 2500 N. W. 27th, Fort Worth 6, Texas; telephone MArket 6-5007, has an old photograph album she purchased from a native of Iowa City, Iowa, which contains pictures dated 1863 and 1865, taken in the Iowa and Illinois area. Names under the pictures are DICKEY, RODGERS, STROHM, LOGUE, ELLIOT, ARMSTRONG, FULTON, HOAGG, ROBERTSON, RANKIN, ARVIN, PATTERSON, WARNER, and DR. JOHN SHRODER. If anyone is interested, Mrs. Clark will be glad to give them any of the pictures they can use.

CATES, GREER, HASTINGS, HIMES, HOLLOWAY, WEIGART:

Mrs. Eleanor Hodgkins, Route 11, Box 10, Fort Worth, Texas, wishes to exchange data on the following lines:

OWEN GLENOWER CATES, born Sept. 24, 1806, licensed to practice law in Christian County, Kentucky, in 1828, (probably born also in Christian Co., Ky.).

WILLIAM BYRD GREER, died in Henry Co., Tenn.; married DRUCULLA HALL, who also died in Henry County.

HENRY HASTINGS, born 1727; died May 17, 1812, Orange Co., North Carolina--who were his parents and his wife and where were they born?

SOPHIA HIMES, born 1819, Bedford County, Tenn.; died 1858, Bedford Co., Tenn.

ROBERT HOLLOWAY, died 1778, Orange Co., N. C.--who were his parents and where were they from? His wife's, Martha's, maiden name? She lived in Orange Co., N. C., in 1790.

JOHN WEIGART, born in Kentucky in 1801, where? His parents? He married MARY B. JONES, 1825/30, Tennessee.

ROUSSEAU, CARSON, APPLEWHITE, WELCHMEYER, PICKENS:

Mrs. Hickman Riley, 4825 Montgomery Avenue, Downers Grove, Illinois, is trying to trace her family history and Revolutionary War lines. She is seeking a MOZEA ROUSSEAU and his first wife, MARTHA CARSON, (Mozea's second wife was MARY APPLEWHITE WELCHMEYER ROUSSEAU; after Mozea's death she married GUS. HEMPHILL).

Mozea Rousseau was a member of Stephen F. Austin's second colony; he came into Texas from Alabama in 1828, and received a land grant signed as a widower with two daughters and one son in 1831. He was a sub lieutenant of Austin's. There is a Rousseau League in Bastrop, Bastrop County, Texas.

Mrs. Riley needs data on Rousseau's wife--her full name; dates of birth, marriage, and death, where and when and where buried; the names of her parents and data on them; and also where Mozea Rousseau is buried. She has data that claims Mozea's wife's, Martha Carson's, mother was a Miss Pickens (Anne, Martha, or Mary) before her marriage to James Carson, Martha's father. This Miss Pickens is said to be the dau. of General Andrew Pickens.

What's my lineage?--continued:

Mrs. Elma Croom Hooker, P. O. Box 37, Gila, New Mexico, is seeking the parents and birth place of WILLIAM H. CROOM, born between 1800/1810, (N. C.?). His death date is unknown, although research proves he was in 1845 alive in Madison County, Tenn. He purchased land in Madison County in 1827, and is on the tax list in 1828. He married c 1827, NANCY NEEDHAM, b. 1806, Tenn., dau. of LEWIS NEEDHAM, born c 1770, Pasquotank County, N. C. Nancy died in Texas (Bonham) in 1878; her father also died in Texas (when?). Three known sisters of Nancy's were--Amelia ("Amy"), b. 1796, Randolph Co., N. C.; m. c 1815, BENJAMIN WHITE, b. 1792, Ga.--Martha, b. 1804, N. C.; m. WYATT MOORING, b. 1805, N. C. (he was closely associated with William H. Croom)--Sina Needham, b. 1814, Tenn.; m. 1833, JOHN P. SIMPSON, b. 1807, Tenn. With the exception of William H. Croom and Wyatt Mooring and family, all the above named persons went to Fannin County, Texas, about 1837.

THOMAS ELEMS (ELMS) with family went to Coryell County, Texas, between 1850-1860. He was from Arkansas, probably Independence County. His date of birth is approx. 1815/25. Marriage date and wife's name--unknown. The 1850 Census of Independence County, Ark., gives ELEMS & ELMS families. There are reasons to believe his mother or grandmother's maiden name was MEEK(S), MEEKER, or MEEKEY.

Shortly after Thomas settled in Coryell County, Texas, Indians raided the settlement; many were killed, and at least three children were captured, one of these three was Thomas's son, who later escaped. After this, it is said that Thomas and his family went back to Ark., where he and his wife were poisoned by slaves. Later, relatives moved to Coryell County, Texas, again, and reared the orphan children, DAVE, ELIZABETH, HADDEN, & EMELINE.

Mrs. Hooker is also seeking data of parentage of ANDREW J. THOMPSON, b. c 1825, Tenn., who went to Polk County, Texas, while young. He m. in 1850, ELLEN CUMMINS, in San Jacinto Co., Texas. He was in the War Between the States. Ellen Cummins' mother was ELIZABETH COLE, b. 1800, in La. (Caddo Parish?) To Polk Co., Texas, in 1812.

SUGGESTED SOURCES OF INFORMATION FOR LOUISIANA GENEALOGICAL RESEARCH:

(As compiled by V. L. Bedsole, Head, Dept. of Archives,
Louisiana State University, Baton Rouge 3, Louisiana)

I. The National Archives, Washington 25, D. C.

Arrangements for research and copy service from records in the National Archives and in the Washington area may be made through the Office of the Chief of the General Reference Section, National Archives and Records Service, General Services Administration, Washington 25, D. C.

A. Census Records (United States Census)

From 1790 is printed and indexed by name

Beginning in 1800 is arranged by county (called "parish" in La.)

First Federal census in which La. is included is the 1810

census in which La. is designated as the Territory of Orleans.

Beginning in 1850 gives name, sex, age, and place of birth of each member of the household.

B. Military Records

Records of service in wars in which the U. S. participated are available in various record groups in the National Archives, including records for the American Revolutionary War, the War of 1812, Indian Wars, the Mexican War, the Civil War, and the Spanish-American War.

(Suggested sources for information for Louisiana Geneal. Research continued:)

II. Office of the Clerk of the Court and Ex-Officio Recorder at the parish courthouse in Louisiana

Public records offices generally can furnish a certified copy of a selected document for a specified fee. They are not usually staffed, however, to provide research assistance in locating desired documents, but they may be able to recommend for that purpose some local attorney or other person experienced in the use of those records.

In order to facilitate the work of the researcher, it may be advisable to supply him with any data already established.

Many state and parish (county) records of Louisiana have been destroyed by fire or other factors.

Parish (county) records of value for genealogical information consist chiefly of records of wills and related probate documents, records of property (deeds), marriages, civil litigations, tax assessments, etc. Probate records pertain to the proof and execution of wills, the appointment of curators of vacant estates, absent heirs, minors and other persons, tutors of minors, the settlement and liquidation of successions, the putting into provisional possession of the heirs of absentees, and the liquidation and payment of all claims against the succession. These records are particularly useful for finding the names of relatives and especially of children of the deceased.

Applications for marriage licenses generally show the name and address of the respective parents, and if one of the contracting parties was previously married, the name of the former spouse.

III. The Louisiana Genealogical and Historical Society

That Society may be of assistance both in furnishing the names of possible researchers available for employment and in publicizing a specific genealogical research interest. The Society publishes in its bulletin queries of non members as well as of members. The address is P. O. Box 335, Baton Rouge, Louisiana.
