The Texas Health & Safety Code Section 437.003 authorizes counties to require permits for a variety of establishments. Section 437.012 states a county or public health district may require the payment of a fee for issuing or renewing a permit; fees collected by a county shall be deposited to the credit of a special fund of the county and fees collected by the cooperative agreement under which the district operates; fees deposited as provided by this section may be spent only for conduction of inspections required by the chapter and issuing permits.

The consumer health section of the environmental division of Public Health inspects primarily food establishments and swimming pools. Food handler training revenue is also deposited to this account as it is related to the requirements of the inspected food establishments. Other activities include general consultations, plan review, opening, operating and follow-up inspections as well as complaint and disease investigation inspections as needed.
