Agenda Item Number: VIII. A. 3

Subject Matter: Tarrant County Mask Mandate

Comments:

I would like the Court to NOT extend the Tarrant County mask mandate beyond the current expiration date of 11/30/2020. No business should be required to demand their patrons wear a mask. I also would like the Court to effectively communicate to Tarrant County businesses of the mask mandate expiration (and non-renewal) so that they are aware they can remove the requirement. This should be clear and effective to eliminate confusion between businesses and patrons.

I fully respect everyone's right to make their own choices to mask or not mask, to stay home or not stay home, and that it is not the government's responsibility to mandate it. There is not call to quarantine or force "health requirements" on the general public. This is overreach.

I do not want the mask mandate extended - this has been proven ineffective as shown in many studies, and the rising number of cases. Also, the masks need to be removed from the kids at school - wearing a mask for 8 hours a day is unhealthy, and unnecessary - there have been no deaths in Tarrant County under the age of 25. End the mask mandates and open businesses - citizens know enough about COVID to protect themselves responsibly.

Yes, this coronavirus is contagious, but it has proven that it is not especially deadly. Certainly not like it appeared back in the Spring of this year. Your heavy-handed overreaching mandates are not needed. You need to vote to remove the shackles that you have placed on the citizens of this county. Comments:

I would like to express my opinion on the mask mandate. I do not believe they work, there are just as many studies against them as there are for. These masks are a way for the government (including local) to enforce their tyrannical ideas on the public in order to try and control them. Last I checked we lived in a free country and a virus that has a 99.9% recovery rate SHOULD NOT be used for politicians to try and take our freedoms away.

I own a small business and these shutdowns have caused me to be on the brink of closing. These so-called mandates actually hurt the public more than they help. Of course, we wouldn't expect politicians with a guaranteed paycheck to understand that.

I guarantee the public will remember these actions come election time.

There is zero evidence that this is no more than a bad flu, The masks do nothing to protect as you can see the cases are increasing. However we know mostly from the faulty testing. No one is dying other than all the small businesses. This mandate is against our constitutional rights and you are hurting and dividing the people of your county. I urge you to do the right thing and end this baseless nonsense today! I pray for all these children that are losing much needed oxygen to their brains to develop! No time in history has a mask worked to stop a microscopic viral droplet and this is no different. Clearly you can see everyone wearing one is still getting it. Why is that? Immune compromised now from the mask wearing, touching and many other reasons. Stop the draconian tyranny today! Do the right thing To even think you want to extend this until February 2021 is absolutely insane.

Subject Matter: MASK MANDATE/More Restrictions/Youth Sports

Comments:

Judge Whitley- you have become a tyrant. Your commissioners have as well. WE THE PEOPLE HAVE SPOKEN. Get rid of the mask mandate. Get over your power trip. You are Hitler in the making. We have seen pictures of your family MASK FREE and playing sports all over Aledo, Tarrant and Collin Counties. You are a HYPOCRITE and a wolf in sheep's clothing alongside the rest of the RINOs. I believe that shutting down youth sports not only deprives children of NECESSARY physical activities but it leads to severe depression, anxiety and higher suicide and abuse rates. How would you like it if YOUR CHILDREN AND GRANDCHILDREN committed suicide because of the lockdowns? You would never forgive yourself or forget the harm you have done. YOU NEED TO TREAT THE PEOPLE OF TARRANT COUNTY the way YOU want your family and loved ones to be treated. YOU ARE NOT A KING. STOP NOW! DO NOT CLOSE US DOWN. WE RFREE

Agenda Item Number: VIII. A. 3

Subject Matter: End Mask Mandate and business closings

Comments:

Do not extend the mask mandates and do not continue with the closings. It's ridiculous. We've been under mandates for months and it has had no impact on the spread of the virus. Stop taking away our liberties by pushing a lie - Masks don't work. Closings don't work. The definition foolishness is doing the same thing over and over expecting different results.

Start trusting the people and business owners to do the right things and practice good hygiene. Who dies and made you guys King? Stop running over the constitution under the pretext of "Safety." Life is hazardous. I'm willing to take the risk.

Comments:

This mask mandate is not healthy for anybody. Have you ever watched any of the videos talking about a mother with a happy face versus the blank face? The child acts out immediately when the mothers face goes blank. The child starts waving, the child screams, and lastly the child starts crying. You Are asking the public to shield their faces to not know what another is thinking, to not know what another is reacting to. There's no happiness anymore in our society, have you not noticed? People are angry, people are depressed, people are fighting for no reason. So don't tell me this is about Covid; we all know that it's not and it's not healthy for anybody, mentally or physically. Don't for one minute tell me that a mask is healthy for me if I cannot read Another's face or that this Acne inducing thing is still healthy for my insides. And get that fake doctor out of the there.

I have been in healthcare for 29 years and have seen the science on masks as well as the science on asymptomatic carriers. There is no evidence that masks prevent infection nor is there evidence that asymptomatic (aka healthy) people spread disease.

Every health authority has stated that masks are useless and only changed their stance on that when politics demanded it because no new science had been conducted. Both the WHO and Fauci have stated that asymptomatic people are not spreading this disease.

There is no reason for healthy people to be running around in public with masks. It will not prevent the spread of this infection and may harm people. It is not the government's job to protect my health. If I want to wear a mask, I have the freedom to do that. If I don't want to wear a mask (since it will make my asthma

While I respect everyone's right to wear a mask if they so choose, I do not respect the government's response to this pandemic. I am a young man, I have had Covid-19, and I do not support these restrictions that are killing our economy. I do not believe any government official has the right to dictate how people are allowed to live no matter the emergency. Even if you decide to extend the mandates I will continue to disobey because you don't have the constitutional right to force me to wear a mask, and I have the inalienable right to say "no." It is time to allow people to risk their lives if they want. It is time to accept personal responsibility as the response to this virus.

As a retail worker, I am in favor of extending the mask mandate the court will be considering tomorrow. My concern is based on the potential spread at Thanksgiving, then people shopping for the holidays and spreading COVID-19 without masks on starting December 1st. I am glad that the proposed renewal will take us through Christmas & New Years, Martin Luther King Jr Day (as these are days which students/parents are usually out visiting family/friends or shopping).

Comments:

County Commissioners Court:

I'm an extremely concerned citizen of Tarrant County. What's happening in our state is egregious. Under WHAT ground are you able to extend the emergency declaration? This alleged Covid disaster was downgraded by the CDC to an outbreak. The fact that you are considering extending this as an "emergency" is unlawful and fraudulent. It is federally prohibited to extend an emergency when there is no emergency. We the People are gathering our information to file notice again each commissioner in this county. Each of you can be sued PERSONALLY for perpetuating fraud, which is a federal offense and punishable by law. None of you are above the law. We're not going to allow you to continue this fraud.

You also have no right to force, fine or extend the mask mandate. AGAIN, where is the data to prove that

I am an oral deaf woman who wears hearing aids and lip read. I have to lipread to hear. The masks hinder my ability to hear and understand speech. If something happens to me or my family, I will not be able to understand what is being said. I can't understand the medical staff on my appointments because of the masks and they refuse to lower the masks. Same issue at restaurants and other places where masks are worn. The masks also interfere with my hearing aids. The masks do more harm for those with hearing loss than help us. They cut me off from my ability to interact with others on a personal level. The masks are very isolating for deaf people and leading many to an increased level of depression. Therefore I am against the mask mandate. I see more people with masks on than ever. I will take other measures of safety such as "distance" but I again need to read lips to hear.

Agenda Item Number: VIII. A. 3

Subject Matter: Mask Mandate

Comments:

You have no right to require a mask mandate or enforce Gov. Abbotts illegal orders. You have received council from Mr. Vinny Taneja who is required to provide reputable evidence in favor of healthy or asymptomatic residents to wear face masks, to which he has not. He has carelessly referred to CDC guidance, which has zero evidence regarding wearing face masks. He also lied about his credentials on 10/6/2020 in commissioners court which is video. He stated that his MBBS degree was the equivalent of MD here in the US. This is absolutely false, and I will be submitting evidence at a later date. You and Tarrant County Health officials have the responsibility of the burden of proof. I am a nurse in the DFW area and find it extremely odd that there have been zero cases of flu, and November is almost over. Can Mr. Taneja explain why and why the CDC is not keeping flu stats this season?

Judge Whitley,

1. Any act or action that you, **Glen Whitley** acting as **Judge**, commits either supports and upholds the national Constitution and the **Texas Constitution** or opposes and violates them. It is this simple.
2. You have taken an oath to support and uphold the national and state Constitutions and are constitutionally mandated to abide by that oath in the performance of your official duties.
3. You have no constitutional authority, or any other form of valid, lawful authority, to oppose and violate the very documents to which you swore or affirmed your oath and under which you were delegated by the people the limited authority to conduct the duties of your office.
4. The above three positions are true, factual, lawful and constitutionally ordained.

You, **B. Glen Whitley**, acting as **Judge**, swore an oath to uphold and support the Constitution of the United States of America and the **Texas Constitution**, and pursuant to your oath, you are required to abide by that oath in the performance of your official duties. You have no Constitutional or other valid authority to defy the Constitutions, to which you owe your limited authority, delegated to you by and through the People, and to which you swore your oath; yet, by your actions against the People you have violated those oaths and engaged in myriad instances of incompetence, negligence, dereliction of duty, malfeasance, sedition, insurrection, treason and criminal, unconstitutional behavior rendering you unfit to hold public office. More specifically you have NO right to enforce Governor Abbotts illegal mask mandates. You have received council from Mr. Vinny Taneja who is required to provide reputable evidence in favor of healthy or asymptomatic residents to wear face masks, to which he has not. He has carelessly referred to CDC guidance, which has zero evidence regarding wearing face masks. He also lied about his credentials on 10/6/2020 in commissioners court which is video. He stated that his MBBS degree was the equivalent of MD here in the US. This is absolutely false, and I will be submitting evidence at a later date. We the people know that you and Tarrant County Health have the responsibility of the burden of proof. Let it also be known that I am a nurse in the DFW area and find it extremely odd that there have been zero cases of flu, and November is almost over. Can Mr. Taneja explain that and why the CDC is not keeping flu stats this season? Can he also explain why several of my nurse colleagues to include ER doctors, paramedics, etc have lost multiple shifts in the ER over these past 9 months, even laid off? Or why we have never worn masks in the community for Tuberculosis which is spread via respiratory tract, kills 1.5 million people per year worldwide, 1.7 billion are infected with latent TB, and 10 million cases were noted in 2018 per the CDC. I would also like for Mr. Taneja to explain the efficacy of the PCR testing, as this is a "casedemic." Can he explain in detail how this is still considered a "pandemic?" And in detail the death rate of strictly covid 19 without comorbidities and evidence for asymptomatic spread, especially among our children in school.

Moving forward, despite the above-stated factual, lawful positions, your unconstitutional actions, as described throughout this complaint, clearly demonstrate how you have violated all of the above lawful positions, the Constitutions, your oath of office, acted against the public good by knowingly and willfully violating the public trust and committing sedition and insurrection. Pursuant to your unlawful and unconstitutional actions, you have invoked the self-executing Sections 3 & 4 of the 14th Amendment to the National Constitution, thereby have lawfully vacated your office and forfeited all benefits thereof, including salary and pension.

Judge B. Glen Whitley, you are in violation of your oath of office, the national and state Constitutions, and are in clear violation of section 802 of the Patriot Act which clearly defines a domestic terrorist. You are in clear violation of Title 4 U.S.C. 101 - Oath by members of legislatures and officers. Title 18 U.S.C. section 241 - Conspiracy against rights. Title 18 U.S.C. section 242 - Deprivation of rights under color of law. Title 18 U.S.C. 1038 - False information and hoaxes. Title 18 U.S.C. 1001 - statements or entries generally. Title 18 U.S.C. - 1503 influencing or injuring officer or juror generally. Title 18 U.S.C. section 1512B - Engages in misleading conduct. Title 18 U.S.C. section 2071 - concealment, removal, or mutilation generally. Title 26 U.S.C. section 7214 - offenses by officers and employees of the United States. Title 42 - U.S.C. section 1983 - Civil rights action for deprivation of rights. Title 42 U.S.C. section 1985 (3) - conspiracy to interfere with civil rights. Title 42 U.S.C. 2000a (a). Civil rights act of 1871, 42 U.S.C. 1985. Any act committed by you, Judge B. Glen Whitley either supports and upholds the Constitutions, national and state, or opposes and violates them.

Lastly current policing, fining, arrests and harassment throughout the country and Texas/Tarrant County in this case, is in violation of not only First Amendment “abridging the right of people to peaceably assemble” but more narrowly:

Title 18 U.S.C., Section 242 Deprivation of Rights Under Color of Law:

Whoever, under color of any law, statute, ordinance, regulation, or custom, willfully subjects any person in any State, Territory, Commonwealth, Possession, or District to the deprivation of any rights, privileges, or immunities secured or protected by the Constitution or laws of the United States, or to different punishments, pains, or penalties, on account of such person being an alien, or by reason of his color, or race, than are prescribed for the punishment of citizens, shall be fined under this title or imprisoned not more than one year, or both; and if bodily injury results from the acts committed in violation of this section or if such acts include the use, attempted use, or threatened use of a dangerous weapon, explosives, or fire, shall be fined under this title or imprisoned not more than ten years, or both; and if death results from the acts committed in violation of this section or if such acts include kidnapping or an attempt to kidnap, aggravated sexual abuse, or an attempt to commit aggravated sexual abuse, or an attempt to kill, shall be fined under this title, or imprisoned for any term of years or for life, or both, or may be sentenced to death.

The above facts must be considered for the immediate removal and suspension of any and all continued unlawful, unconstitutional and draconian measures adversely affecting citizens. Since

(Marysol Frtiz page 4)

any measures related to and known as 'shelter in place,' quarantine, 'non-essential' work, social distance, and the closure of public spaces are unconstitutional and nothing more than an unlawful attempt at 'social engineering,' they must be immediately suspended by you, given the fact that you issued these unconstitutional orders, assumed authority you do not possess and by your unconstitutional actions as described throughout this complaint you have invoked the referenced Sections 3 & 4 of the 14th Amendment, thus, lawfully vacated your office.

Agenda Item Number: VIII. A. 3

Subject Matter: Extending the mask mandate

Comments:

As a resident of Tarrant County, I do not support the mask mandate extension. The numbers of Covid-19 cases continue to go up with the mask mandate currently in place. Focus on the mortality rate and exercise common sense! It's time for Tarrant County to lead the country in getting rid of the silly mask mandate that clearly is not working!

Agenda Item Number: VIII. A. 2-3

Subject Matter: Agenda Item 2 Extension of state of emergency in Tarrant County

Comments:

In opposition to the proposed extension of the state of emergency in Tarrant County: Despite the known increase in COVID-19 cases that was anticipated to occur for the flu-like illness at this time of the year, it continues to constitute a minority of hospital ICU utilization and continues to show fatality rates that are <25% of typical rates for at-risk groups from conventional primary causes of death (e.g., heart attack, cancer, etc.). It also continues to remain less dangerous than conventional illness such as influenza for low-risk groups such as young people. Since the overall survival rate is better than 99.6% and since the continued spread of COVID-19 throughout the population is not feasible to stop with measures such as indefinite isolation or facial coverings, it would be inappropriate to declare a continued state of emergency or impose these harmful restrictions.
