Department: Budget and Risk
Management

Prepared By: Jason Adams

Approved By: Helen H. Giese

SUBJECT:

Consideration of the Fiscal Year 2027 Engineering Services Fee Schedule

***** CONSENT AGENDA *****

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court consider the FY 2027 Engineering Services Fee Schedule, including proposed changes to fees charged for archival services provided by Tarrant County Engineering Services, effective October 1, 2026.

BACKGROUND

Beginning in FY 2027, County fee schedules will be presented to the Commissioners Court annually for consideration, regardless of whether fee changes are proposed, to provide for a consistent annual review of fees charged for certain County services.

The Engineering Services Department reviews development plans, administers permitting programs, and conducts inspections to support development and infrastructure improvements within the unincorporated areas of Tarrant County.

The proposed FY 2027 Engineering Fee Schedule includes adjustments to certain development review, platting, inspection, permit, and On-Site Sewage Facility (OSSF) fees. A comparison of the current fee schedule and the proposed FY 2027 fee schedule, including the proposed changes, is included in the attached supporting documents.

If approved, the FY 2027 Engineering Services Fee Schedule will become effective October 1, 2026, and supersede the current fee schedule.

FISCAL IMPACT

Approval of the proposed FY 2027 Engineering Services Fee Schedule may affect revenue generated from these service. The fiscal impact will depend on the volume and type of services requested.
