

# Citation by Publication Research Guide

## Overview

This research guide includes information and resources on Citation by Publication. A request for Service of Citation by Publication can be used in a family case when the individual is unable to locate the other parent. It is also used in other types of civil cases. This process requires a judge's approval and may include the hiring of an Attorney Ad Litem to search for the other party at the litigant's expense. The resources listed below are not exhaustive and may not include the most up-to-date information. It is for information purposes only and should not be construed as legal advice or act as the substitute for legal counsel.

## Statutes and Codes
