13 oz. concentrate

Gerber Good Start Soy.....

12.9 oz. powder or
12.1 oz. concentrate

**Breastmilk is your
baby's best first food.**

Use of formula will decrease your milk supply. If you need help with breastfeeding or want information about the food packages available to breastfeeding mothers, talk to the staff at your WIC clinic.

The formula amounts on your Shopping List will change from month to month as your baby gets older.

WIC does not give you all the formula your baby may need.

WIC can consider a different formula if your baby needs it for medical reasons; however, a prescription and approval will be required.

USDA is an equal opportunity provider and employer.
