Customer Feedback

We collect customer feedback on a department-wide basis from information collected from a variety of sources including the motor vehicle contact center, feedback forms and comment cards, chat, and email. We regularly monitor the feedback so we know where and how we can improve the level of interactions with individuals and organizations that use our services. Fast and efficient *#servicewithasmile* is fundamental to our core beliefs whether you contact us by phone, email, chat or correspondence. All communications will be handled professionally, providing safe, fair and respectful treatment to everyone with each encounter.

Our contact centers will promptly handle all chat requests and incoming calls and transfer them to a specialist when necessary. If you contact us through email, we will respond to you within 48 business hours. All incoming mail requests will be handled within three business days when possible. You may experience a longer delay when there is a high volume.
