

Tarrant County Standard Plat Notes

1. Development in unincorporated Tarrant County shall be subject to applicable municipal regulations, the current Tarrant County Development Regulations Manual, and the Tarrant County Fire Code.
2. Tarrant County permits required prior to development within this subdivision, as applicable, include, but are not limited to, construction within the public rights-of-way, driveway access to public roads, development within a designated floodplain, salvage yards, stormwater mitigation, and on-site sewage systems.
3. All drainage easements shall be kept clear of fences, buildings, foundations, plantings, and other obstructions to the operation and maintenance of the drainage facility. All drainage easements that are adjacent and parallel to the right-of-way of dedicated public roadways will be maintained by Tarrant County as approved by Tarrant County Transportation Services.
4. The siting and construction of water wells shall be subject to the regulations of the Northern Trinity Groundwater Conservation District.
5. Tarrant County is not responsible for confirming or ensuring the availability of groundwater.
6. Any existing creek, stream, river or drainage channel traversing along or across portions of this addition will remain unobstructed at all times and will be maintained by the adjacent property owner, or the Home Owners Association, if applicable. The County will not be responsible for the maintenance, erosion control, and/or operation of said drainage ways. The homeowners shall keep the adjacent drainage ways traversing their property clean and free of debris, silt or other substances which would result in unsanitary conditions, and the County shall have the right of entry for the purposes of inspecting maintenance work by the property owners. The drainage ways are occasionally subject to stormwater overflow damages resulting from the stormwater overflow and/or bank erosion that cannot be identified. The County shall not be liable for any damages resulting from the occurrence of these phenomena, nor the failure of any structures within the drainage ways. The drainage way crossing each lot is contained within the floodplain/drainage easement line as shown on the plat.
7. Tarrant County shall not be responsible for the maintenance of private streets, drives, emergency access easements, recreation areas, and open spaces; and the owners shall be responsible for the maintenance of private streets, drives, emergency access easements, recreation areas, and open spaces, and said owners agree to indemnify and save harmless Tarrant County from all claims, damages, and losses arising out of or resulting from the performance of the obligations of said owners set for in this paragraph.
8. Tarrant County does not enforce subdivision deed restrictions.
9. Landowners and subsequent owners of lots or parcels within this subdivision are encouraged to contact Tarrant County's Transportation Services Department prior to conducting any development activities.
10. Any public utility, including the County, shall have the right to remove and keep clear all or part of any building, fences, trees, overgrown shrubs or improvements that in any way endanger or interfere with the construction, maintenance, or efficiency of its respective systems on any of the easement or right-of-way shown on the plat (or filed by a separate instrument that is associated with said property); and any public utility, including the County, shall have the right at all times an ingress and egress to and from upon said easements for the purpose of construction, reconstruction, inspection, patrolling, maintaining and adding to or removing all or part of its respective systems without the necessity at any time of procuring the permission of anyone. Property owners shall maintain easements. The County can remove trees or any other improvement(s) and does not have the responsibility to replace them.
11. Tarrant County requires a minimum lot size of 1.0 acre (net) for properties that are not served by a public water system, and that will be served by private on-site sewage facilities (OSSF). For lots that are less than 1.0 acre (net) and not served by a public water system, landowners shall submit a formal request for a variance of the Tarrant County Development Regulations relating to lot size and a written authorization from Tarrant County Public Health confirming that it has no objections with the processing of the plat. The approval of this plat does not guarantee that any lot is suitable for an OSSF.
